Wow, you're not bad, almost gave me a run for my money.
Oh, just imagine if I wasn't a pony.

Something's really different about you... Besides the 'pony' thing...
But I can't figure it out...

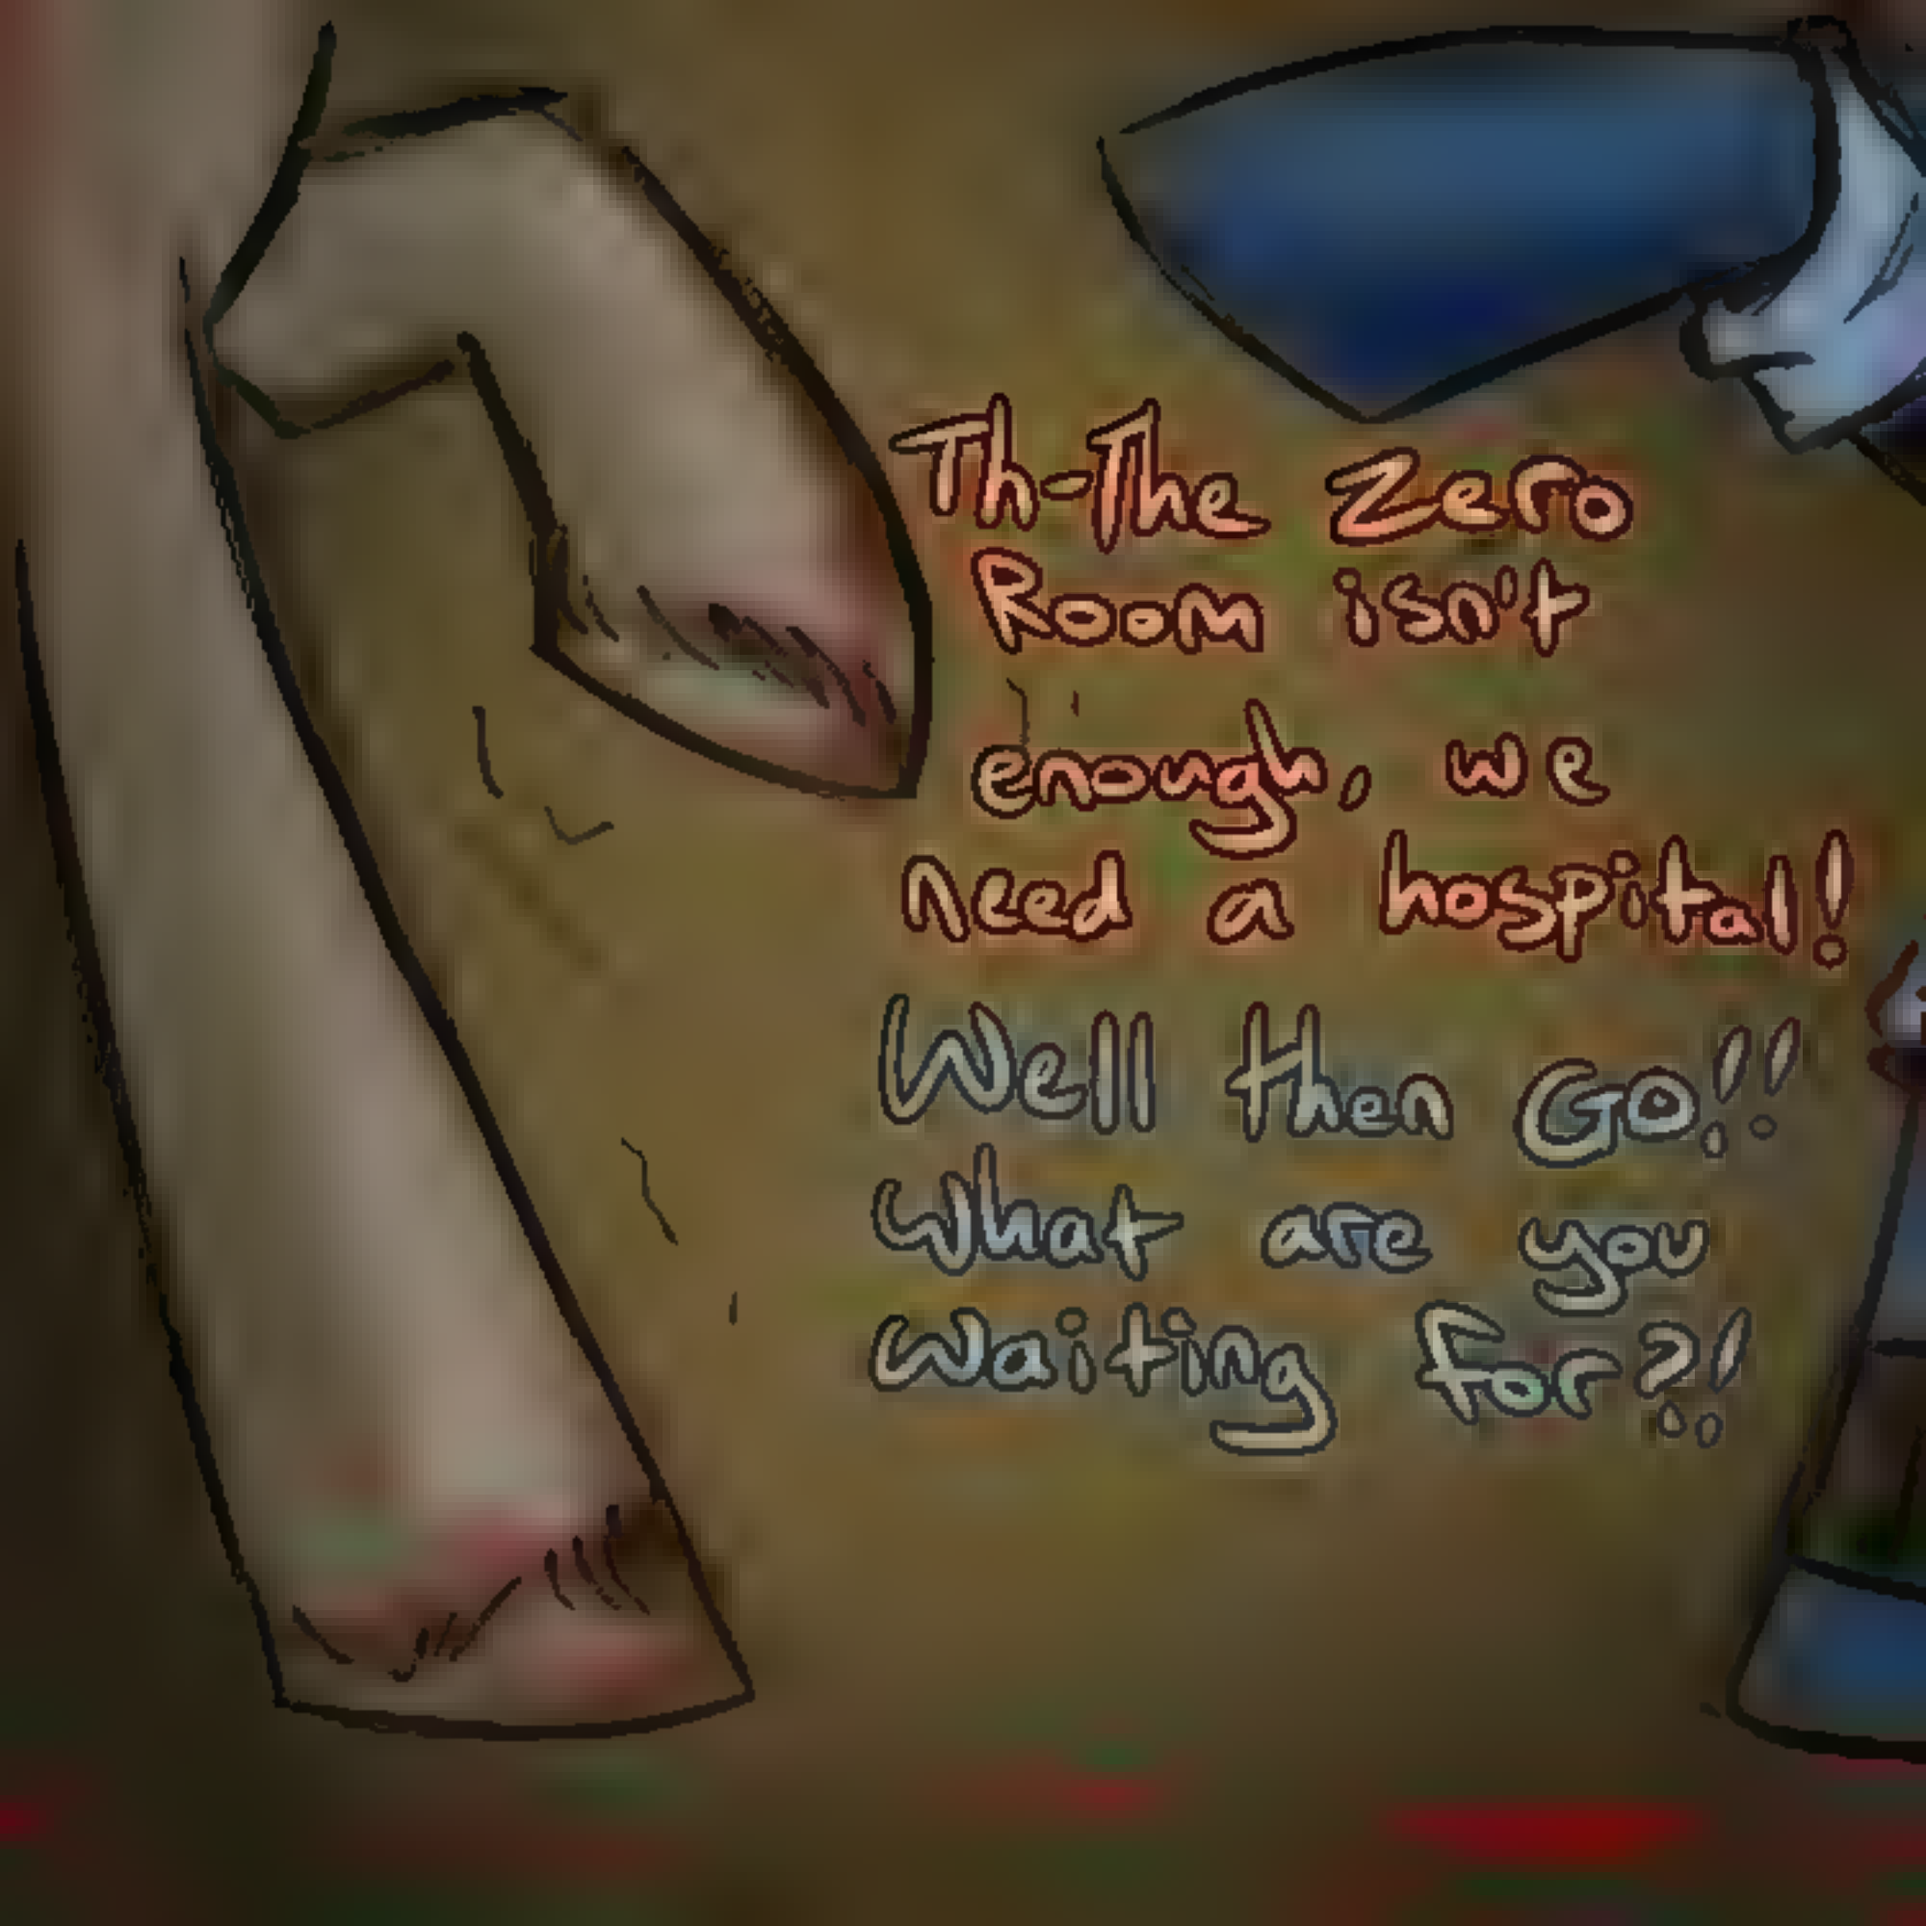
Don't worry. I'll take care of it, you just get her to the zero ROOM STAT!



Th-The Zero Room isn't enough, we need a hospital!
Well then GO!! What are you waiting for?!

I apologize for the magic Sandy, are you okay?

I'm okay Warden,
thank you

Let's focus on Scootaloo Do you have any ideas as to where she would go?
I... I don't know. She never told me about places she would go to hide at..

Excuse me!

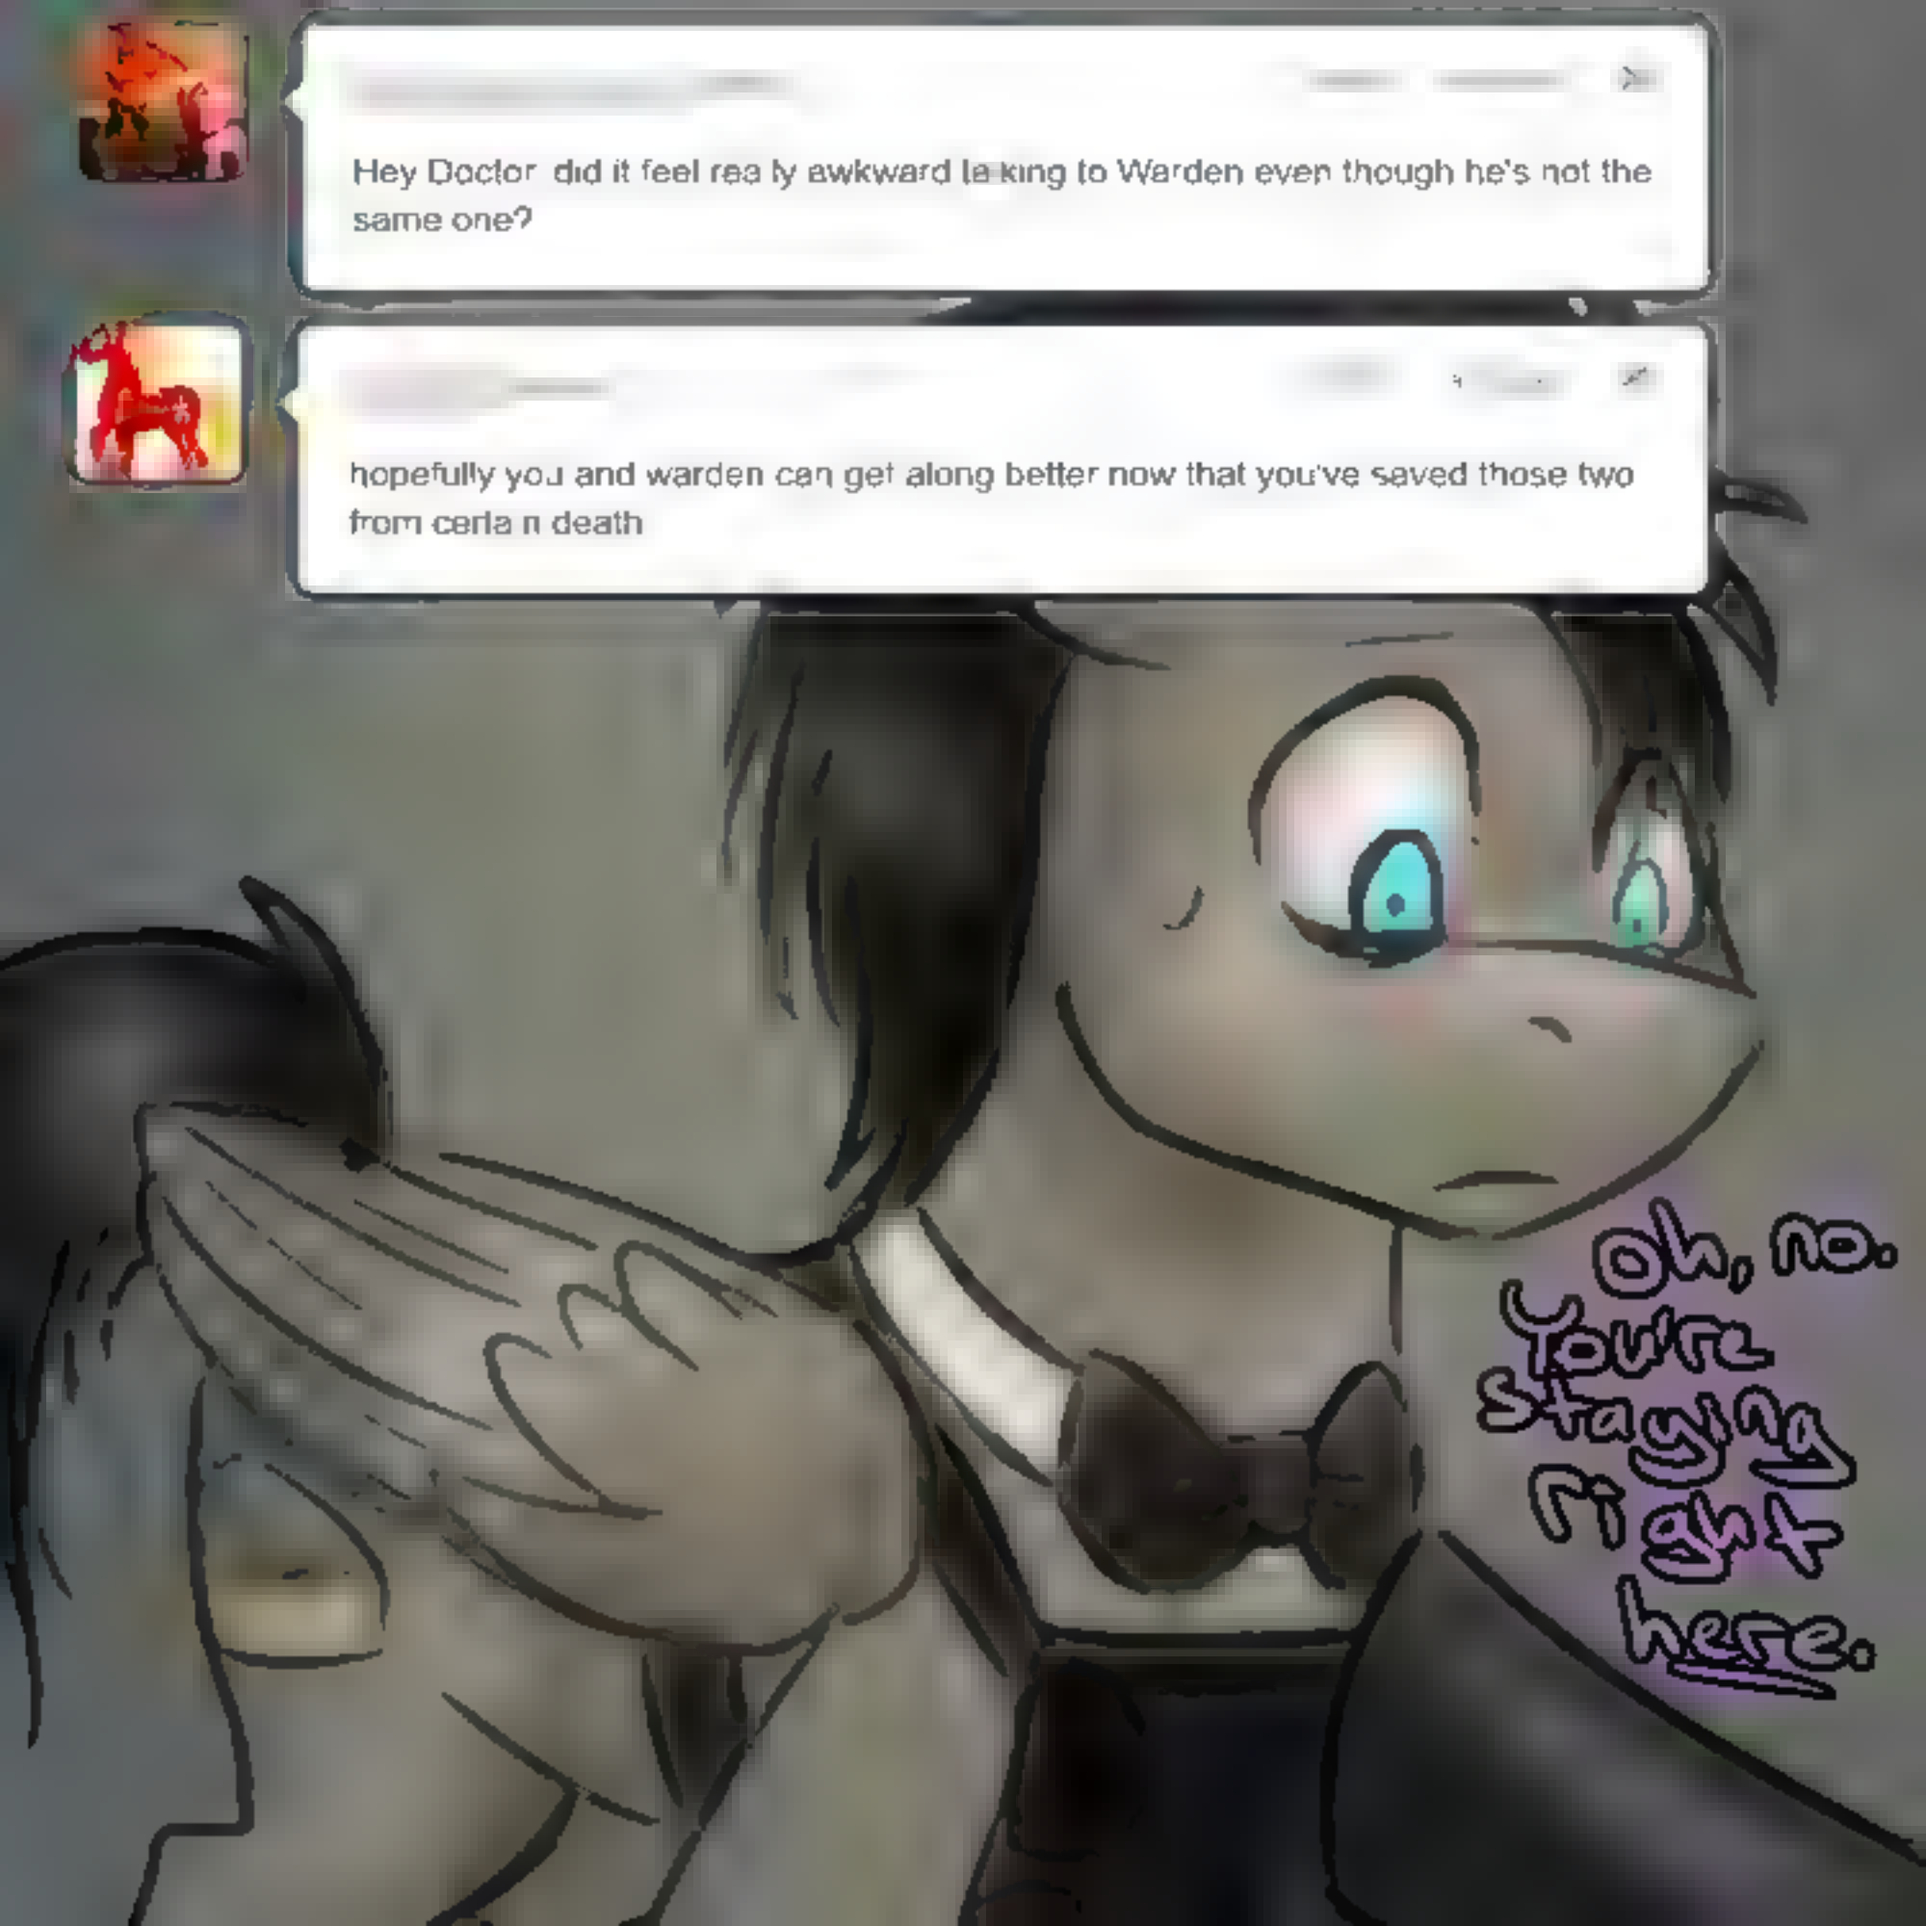
This child needs immediate medical attention!
Box

Doc, how are you going to save Scootaloo? She looks pretty injured I hope you can save her in time

Oh dear Ce est al Is the baby alright? Will you take care of him whi e his mother gets treatment?

There you go. Everything's going to be okay, you little thunder titan...

Are you going to stick around and make sure Scootaloo and the baby are alright or are you going to do what you do best?
W-Well My job here is done, So...



Hey Doctor did it feel rea ly awkward la king to Warden even though he's not the same one?
hopefully you and warden can get along better now that you've saved those two from cerla n death
Oh, no. You're staying right here.

Uh-oh He doesn't look happy to see you
So does this universe's Warden know about you ke the other one did?
I don't know exactly who you are, but something about you is bugging me and you're not leaving until I get all the details.
E-erhm..
Alright..

Come with me, and if you do anything funny I promise you'll be seeing the glass end of a window.

A few hours later

We've managed to get her stable, but she's not out of the woods just yet All we can do now is treat anything more that shows UP.
sniff
Thank you..

This.. this is all my fault...
I can't believe I let this happen.
You were just doing what you thought was right, don't blame yourself.

But the paperwork is being processed as we speak! I'm sure by the end of the week they'll be declared Lightning's legal guardians..

. Maybe I can fight for Scootaloo to keep the baby...

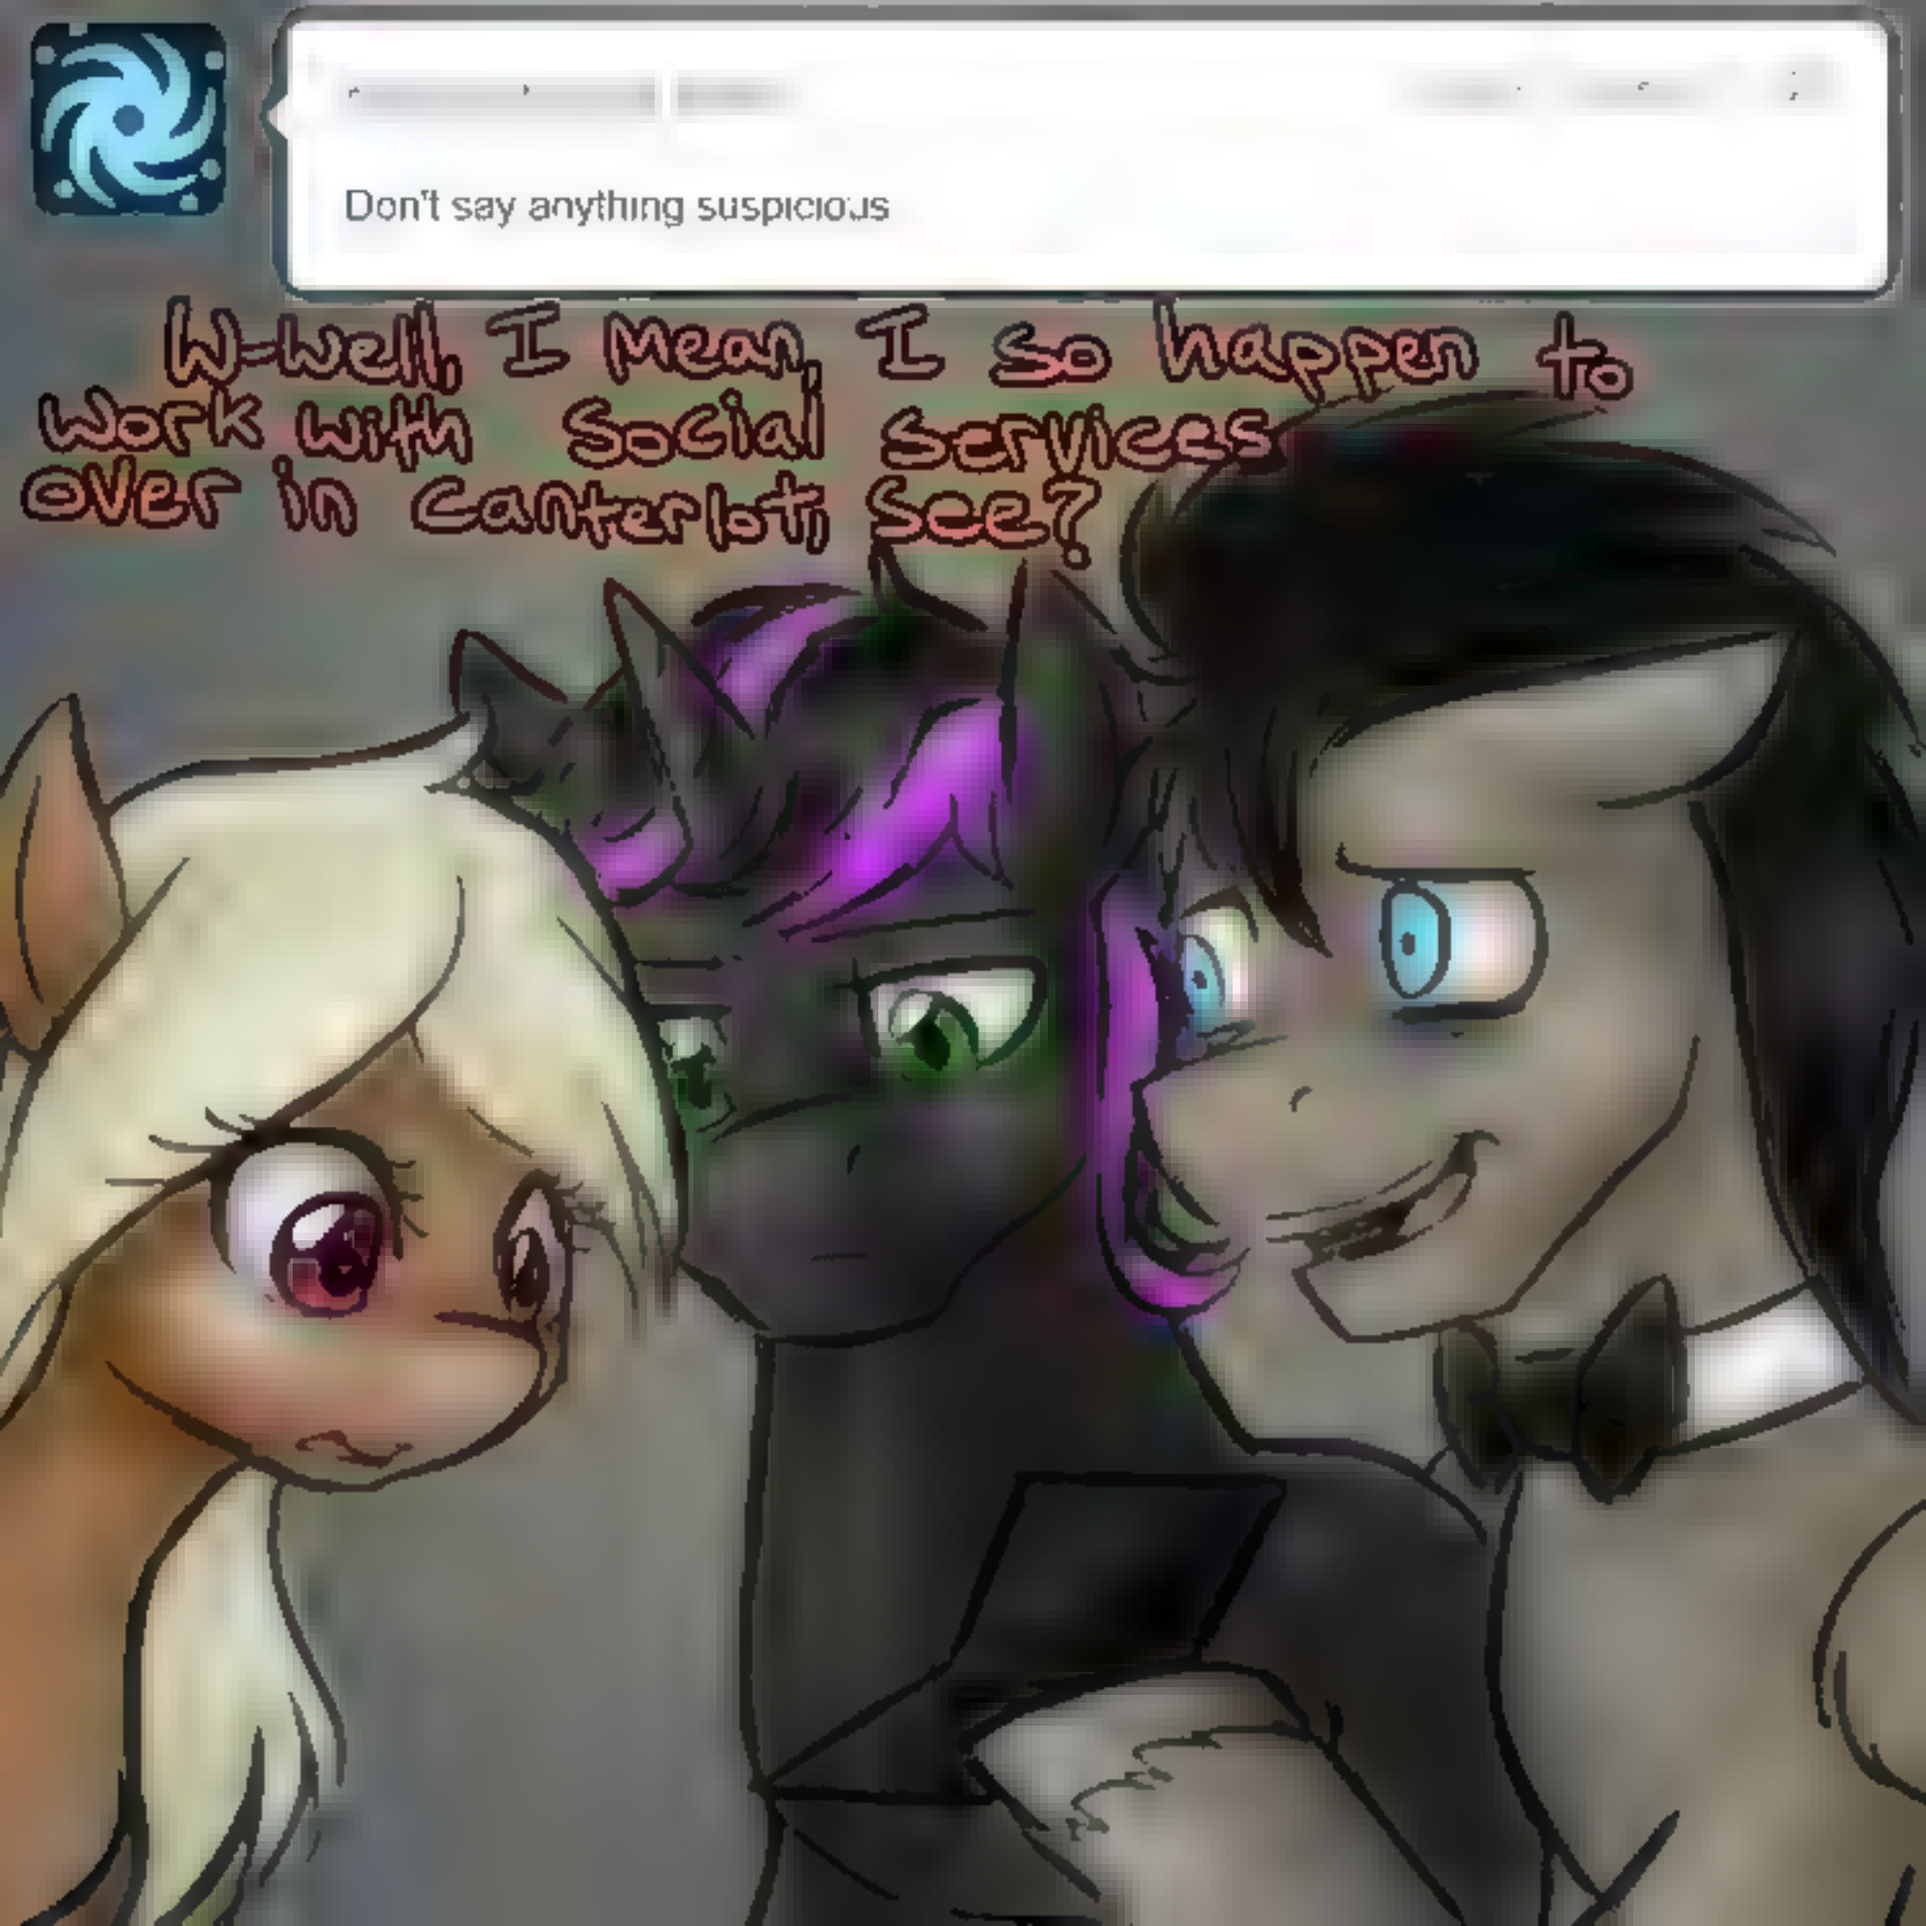
...I really hate saying this, but that won't be possible By law, Scootaloo is in Violation of kidnapping from a hospital and endangering the baby. The courts will have the baby placed into new foster care until this is settled and Scootaloo will be kept away by a restraining order.

The nearest foster homes available are either in Cloudsdale or Canterlot as well. To even visit the baby Scootaloo will have to pass a psychological evaluation, and by then the courts will likely find those two as the rightful parents...

Oh Celestia... what do I do!?
I... I just want Scootaloo to be happy and the baby to have a good home...

Can I not have both!?

Well um... I might actually know a good home that fits that criteria...



Don't say anything suspicious
W-well, I mean, I so happen to work with Social services over in Canterlot, see?

Hey I know you're not really b g on helping ponies, b,t after scoota oo s taken care of, wil you help her and sandy find a family for the baby? After a,l out of all of space and time there has to be some couple somewhere that would be perfect for the kid
I've fostered a lot of foals to good homes and I know a Mare who would be just Perfect for the task.

She can take care of him while you all sort things out... Maybe even be willing to adopt if need be.

she's already familiar with being a caretaker, and her home meets all the safety requirements.

Not only that, but she's got funding directly from the royal family.
Hey,hey, what are you doing, Sparky...?
Heh..

She's also very easy to reach, in fact I'm sure I can contact her immediately.

So, What do you say?

I I'm sorry this all sounds a little too good to be true
And after what just happened with the girl's foster parents

I'm going to need to see this home for myself. So take me there, or I wont let you take him.

O-oh... Um- Right- Sure- of course... I mean, I know what I'm talking about, do you really need-
Yes.

...What is this thing exactly?

Well, it's a little hard to explain without you seeing for yourself first. But it's essentially my transportation, how I get around Equestria quickly.

.. You're not actually part of Social Services are you?

I uh... Well, that may be so, but I'm not lying to you about this home. It really will be just what you're looking for.

Don't worry kiddo, I'll make sure it's a good home this time.

Woah, first you bring in a baby, now a woman? I'M not ready for all these changes, Doc!!

Hey jack. that brown pony looks pretty good, dont she~?

Don't care... Magic...

Oh, no worries! It's not Magic, it's a Time Machine!
JACK!

Wh...What?

Wh-What does he mean by T-Time Machine?
Well, exactly what it sounds like!

Time and Relative Dimension in Space, otherwise known as a TARDIS.
I'll take you anywhere at anytime in the universe.

A-Anywhere at any time?
Yup! Intergalactic parties, 24/7 Raves, Dimensions made entirely out of Shrimp, You name it!

Can I go back and prevent someone from dying!?

...I'm sorry, we can't change the fact that they died. The only thing we can do is change the circumstances, like grant a final wish...

The only regret she had in life...
Was dying before she could see her daughter grow up...

I'm sorry for your loss, I know how it is to lose someone important to you. It never gets easier losing the people important to you. But you have to keep your head held up and looking to the future, it's what they would want.

...Thanks... Let's just focus on getting the baby to a good home, okay?
Okay.

Well, prepare for take off.

Yes, yes, big new sounds. You're an adventurer, I like that!

Look at you go!
You're a natural!

You're really natural at this. Do you have kids of your own?

Hey Twilight know the doctor can't have kids but would you want to have a kid with him?
Wait WHAT?

Well, yes. I've seen what a great job you've done raising Spike. I know it would put Scootaloo at ease knowing her son is with someone that she knows and trusts.

Doctor, are you crazy? He wouldn't be in any direct danger, but I AM!

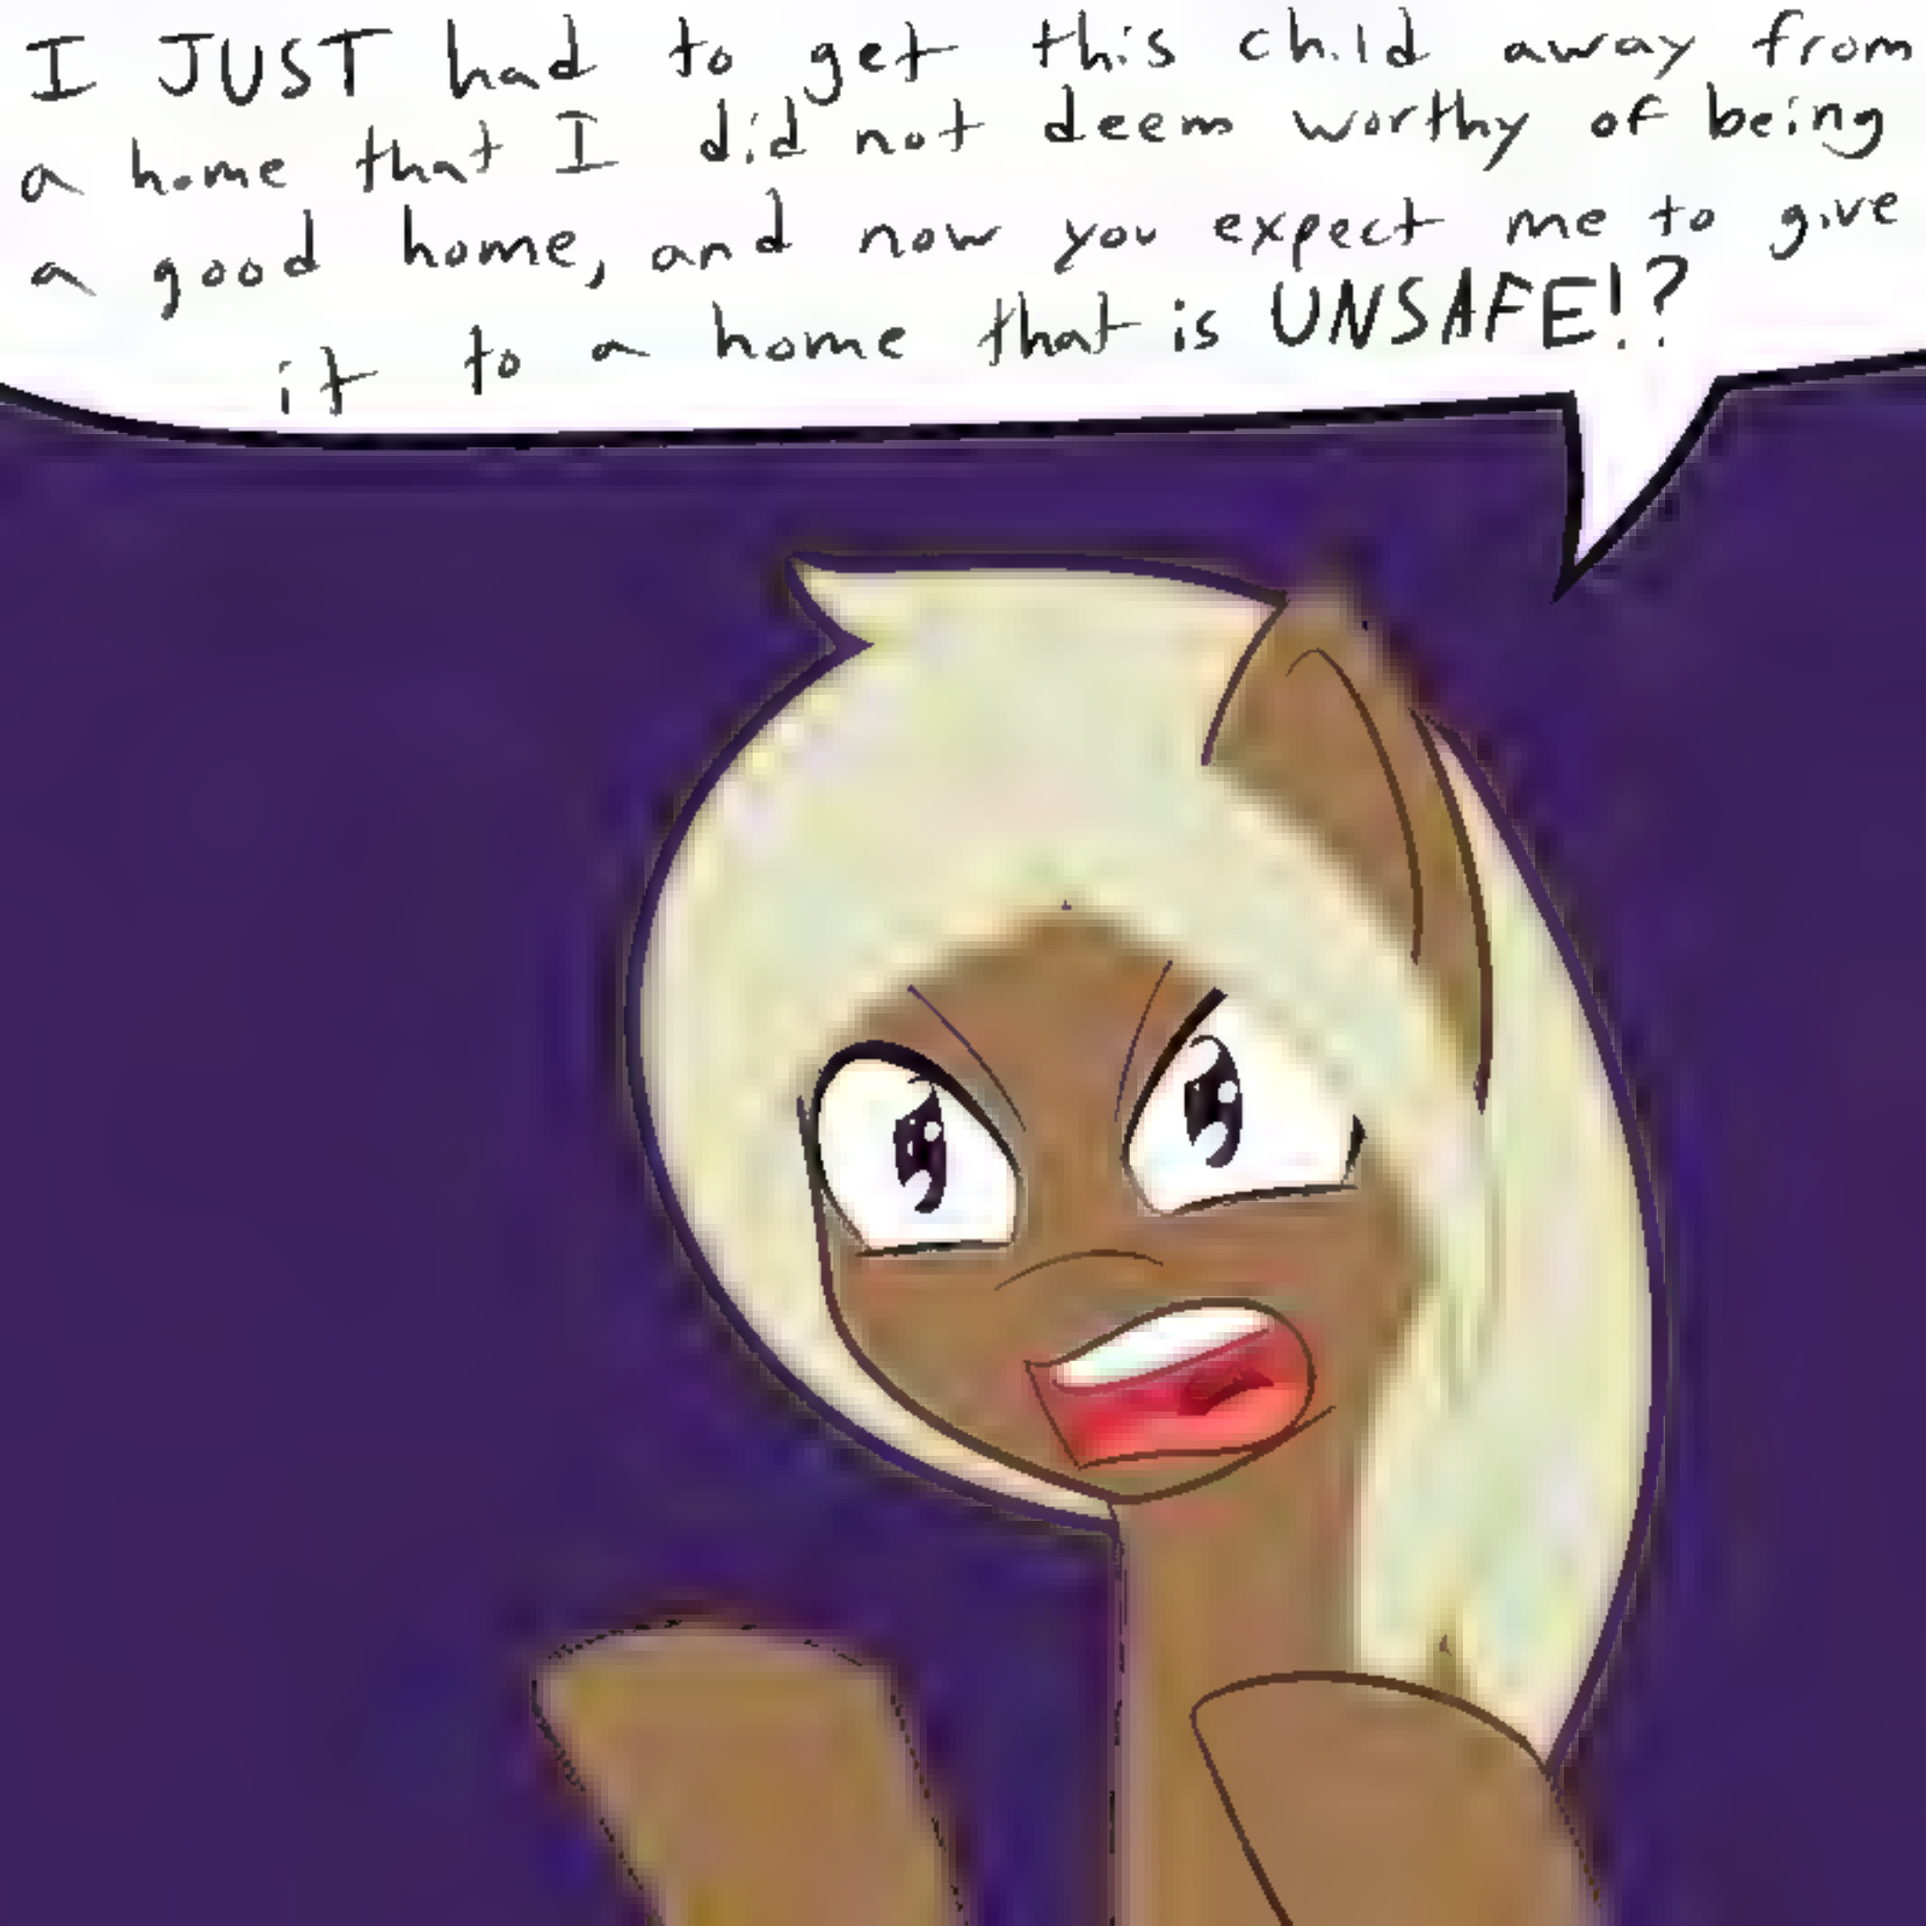
...All of the victims so far have been Unicorns.
I can't ignore the possibility of my being a potential target. What would happen to him then?

Murders?

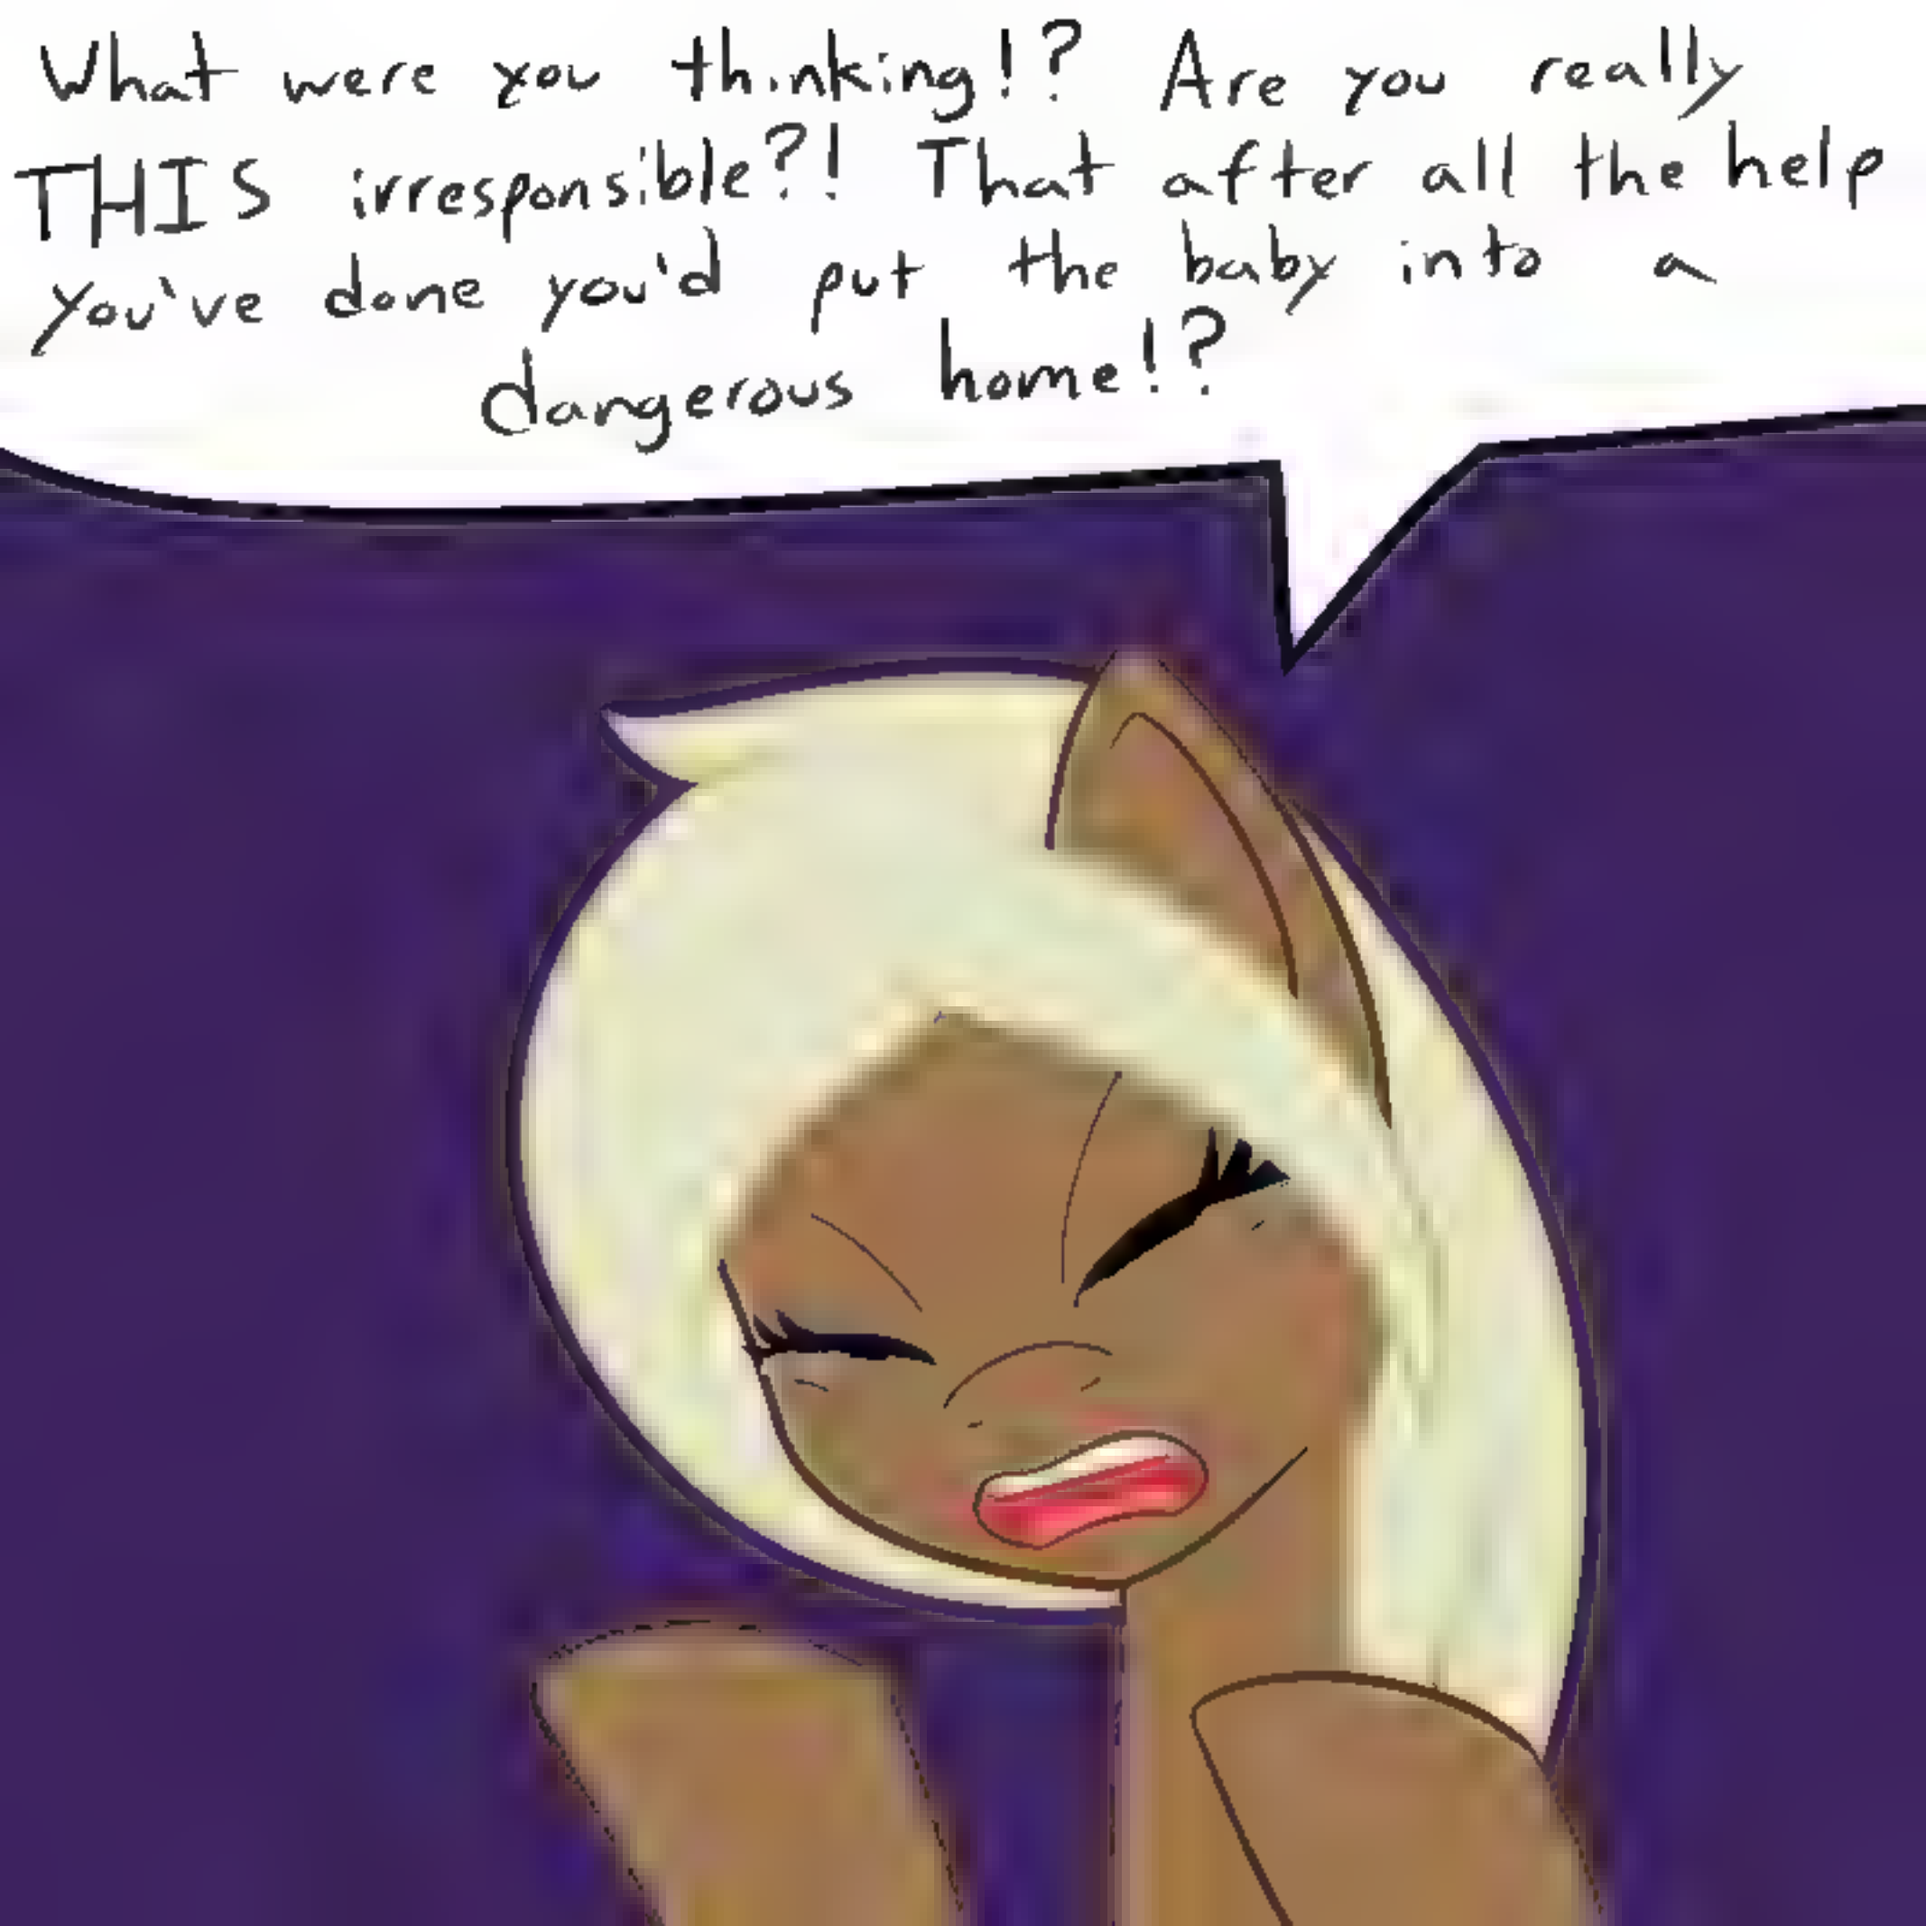
A target... Victims... You...
YOU SAID this would be a safe home!
What, I, it is-

A MURDERER does NOT make a safe home for a CHILD Doctor! Have you lost your mind!?
I just -

I JUST had to get this child away from a home that I did not deem worthy of being a good home, and now you expect me to give it to a home that is UNSAFE!?



This child means EVERYTHING to Scootaloo! Everything! I can't just give it to a home that might get it KILLED! If anything happened to the baby I couldn't LIVE with myself!



What were you thinking!? Are you really THIS irresponsible?! That after all the help you've done you'd put the baby into a dangerous home!?

Aren't you... aren't you a good pony who came to help us?
Who saved Scootaloo and said you could give her child a good home?
...Aren't you?

Yes I am.

This IS a good home, and I can promise that! Do you know why?

Because I'll be protecting it with absolutely everything I've got!

I've dealt with far worse than this, beyond anything you could imagine! And if I can't even protect the only things I care about then what would I be?!

Twilight means everything to me. And I can't always be there for her even though she's lonely.
But that doesn't mean I can't keep her or the things she cares about safe.

We've lost those who are precious to us. You want to hold on to what's left for their sakes, don't you?
You would do anything to keep those things safe, absolutely anything to make the world good for them!

Well that's My Whole life!!
That's me, carrying the dreams of so many lost lives! And with all of those memories and all those hopes-

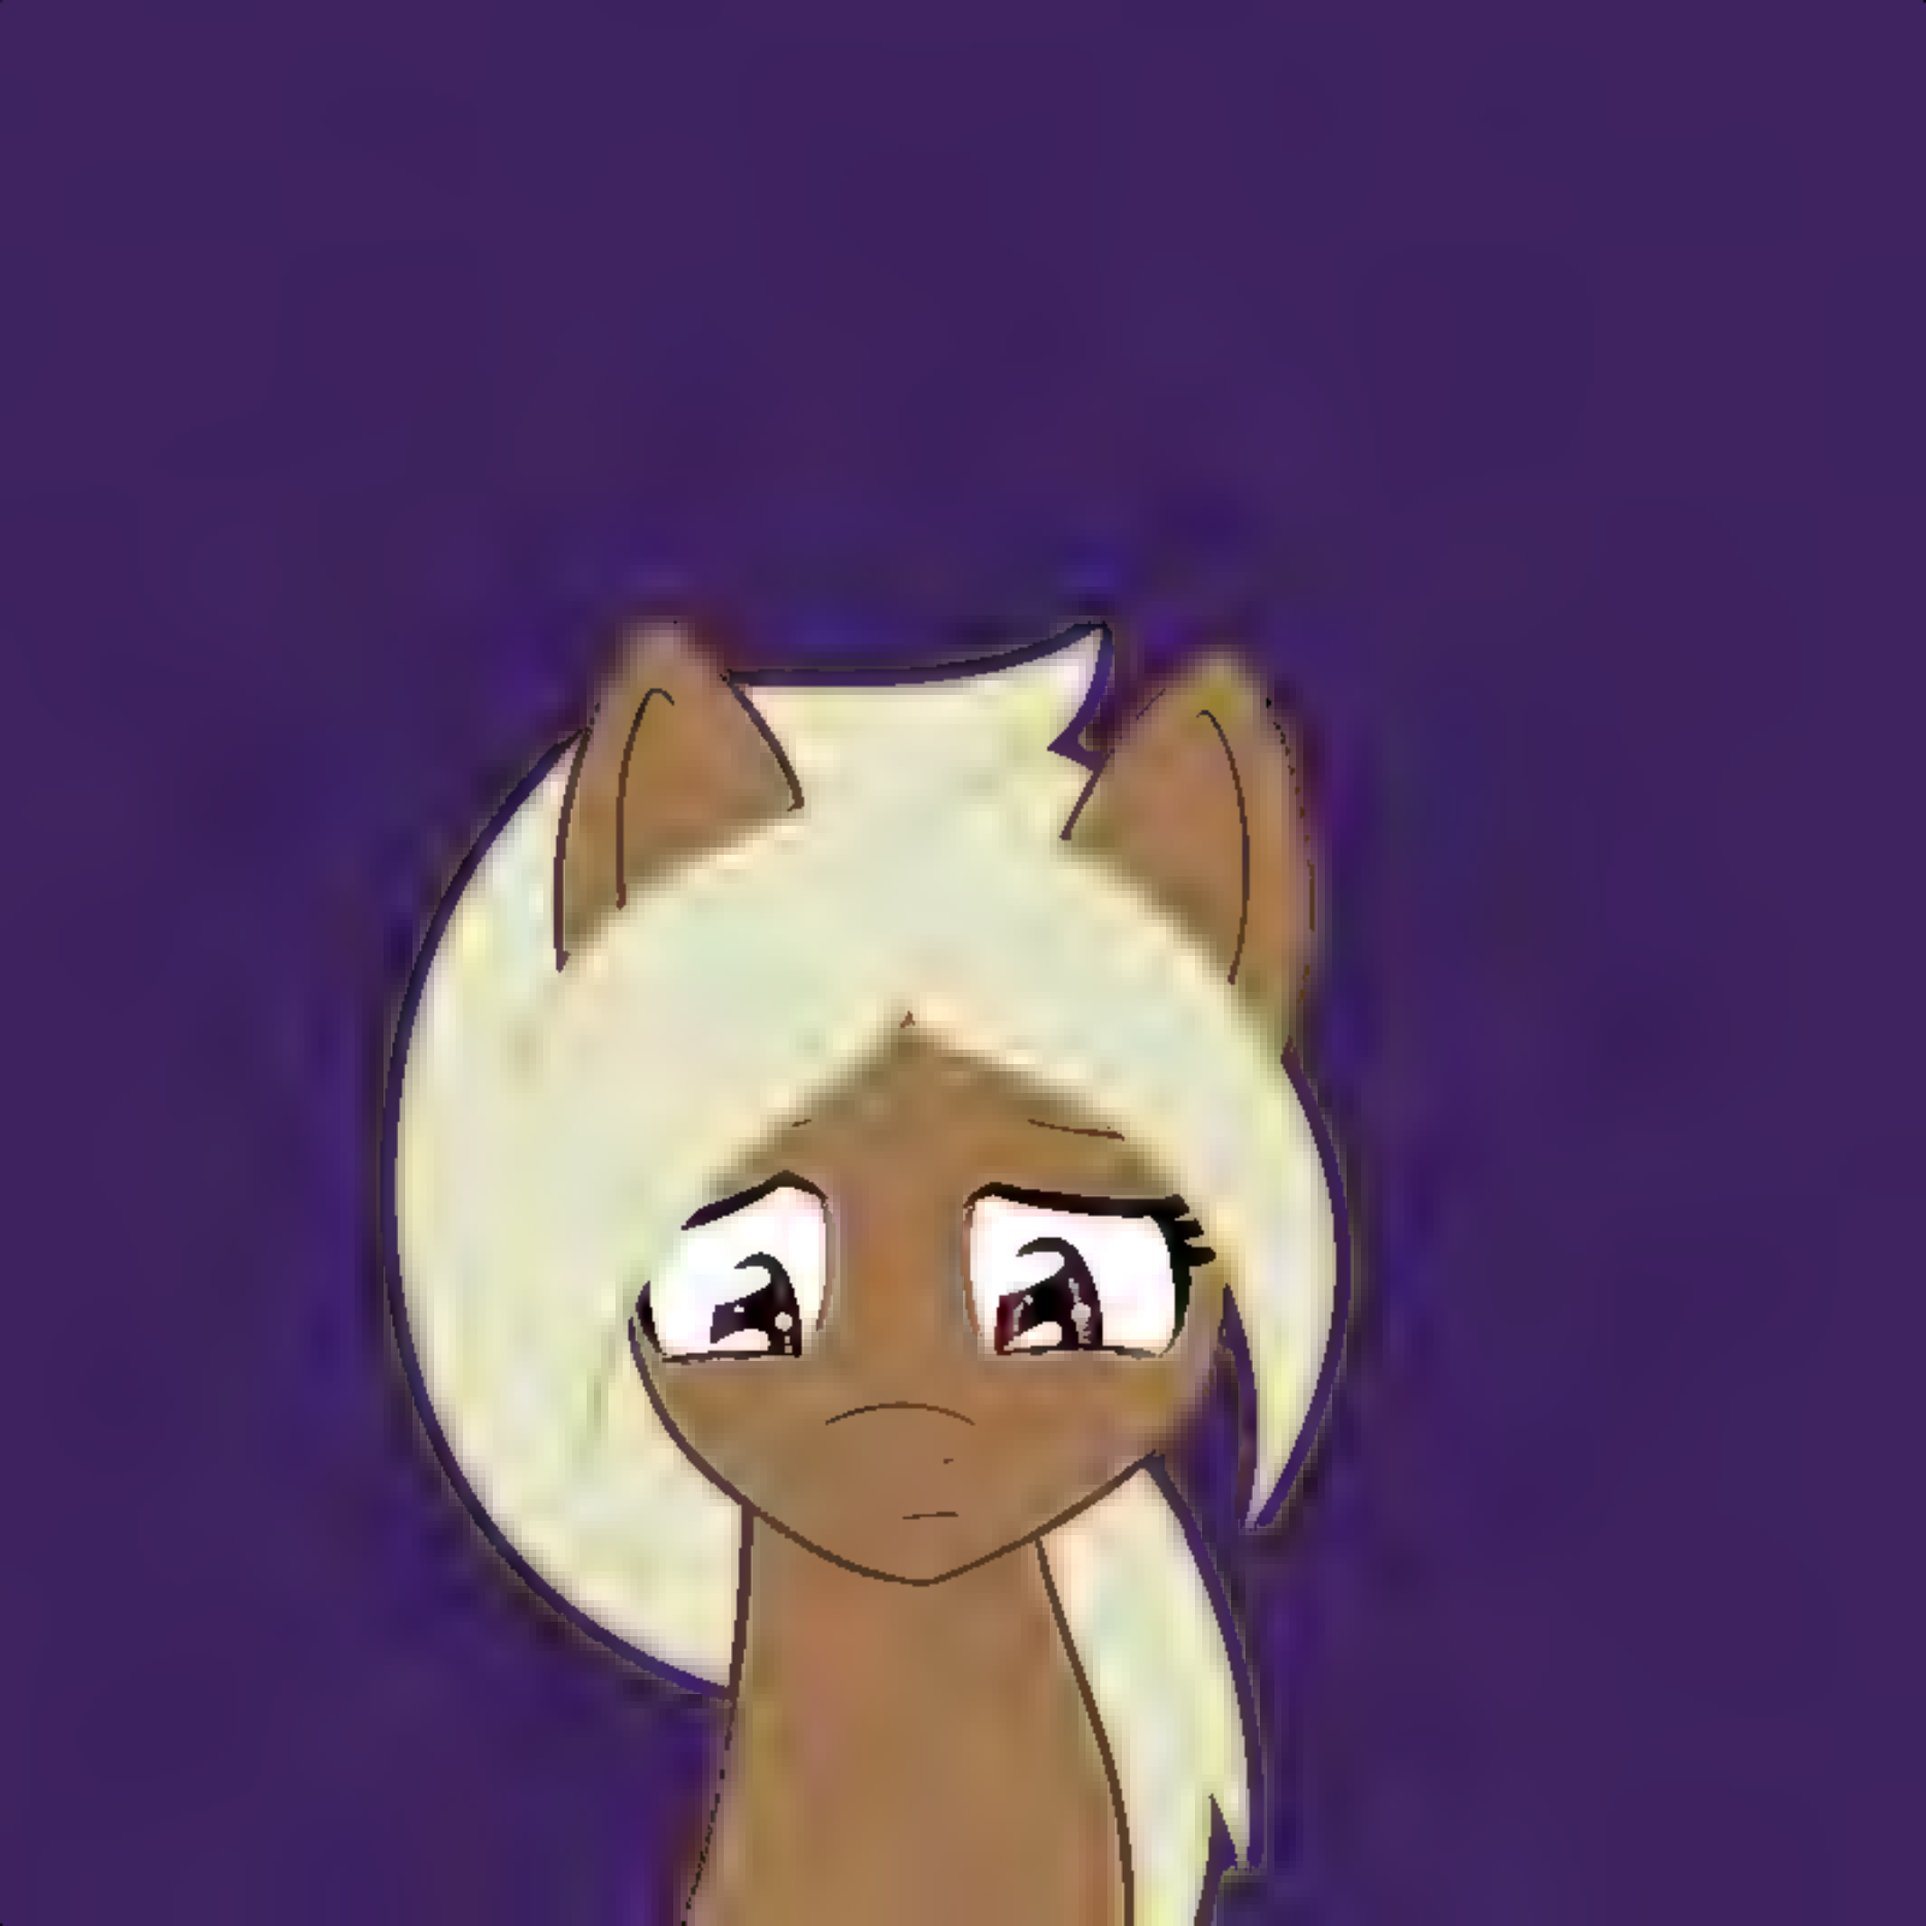
I WILL PROTECT THEM!

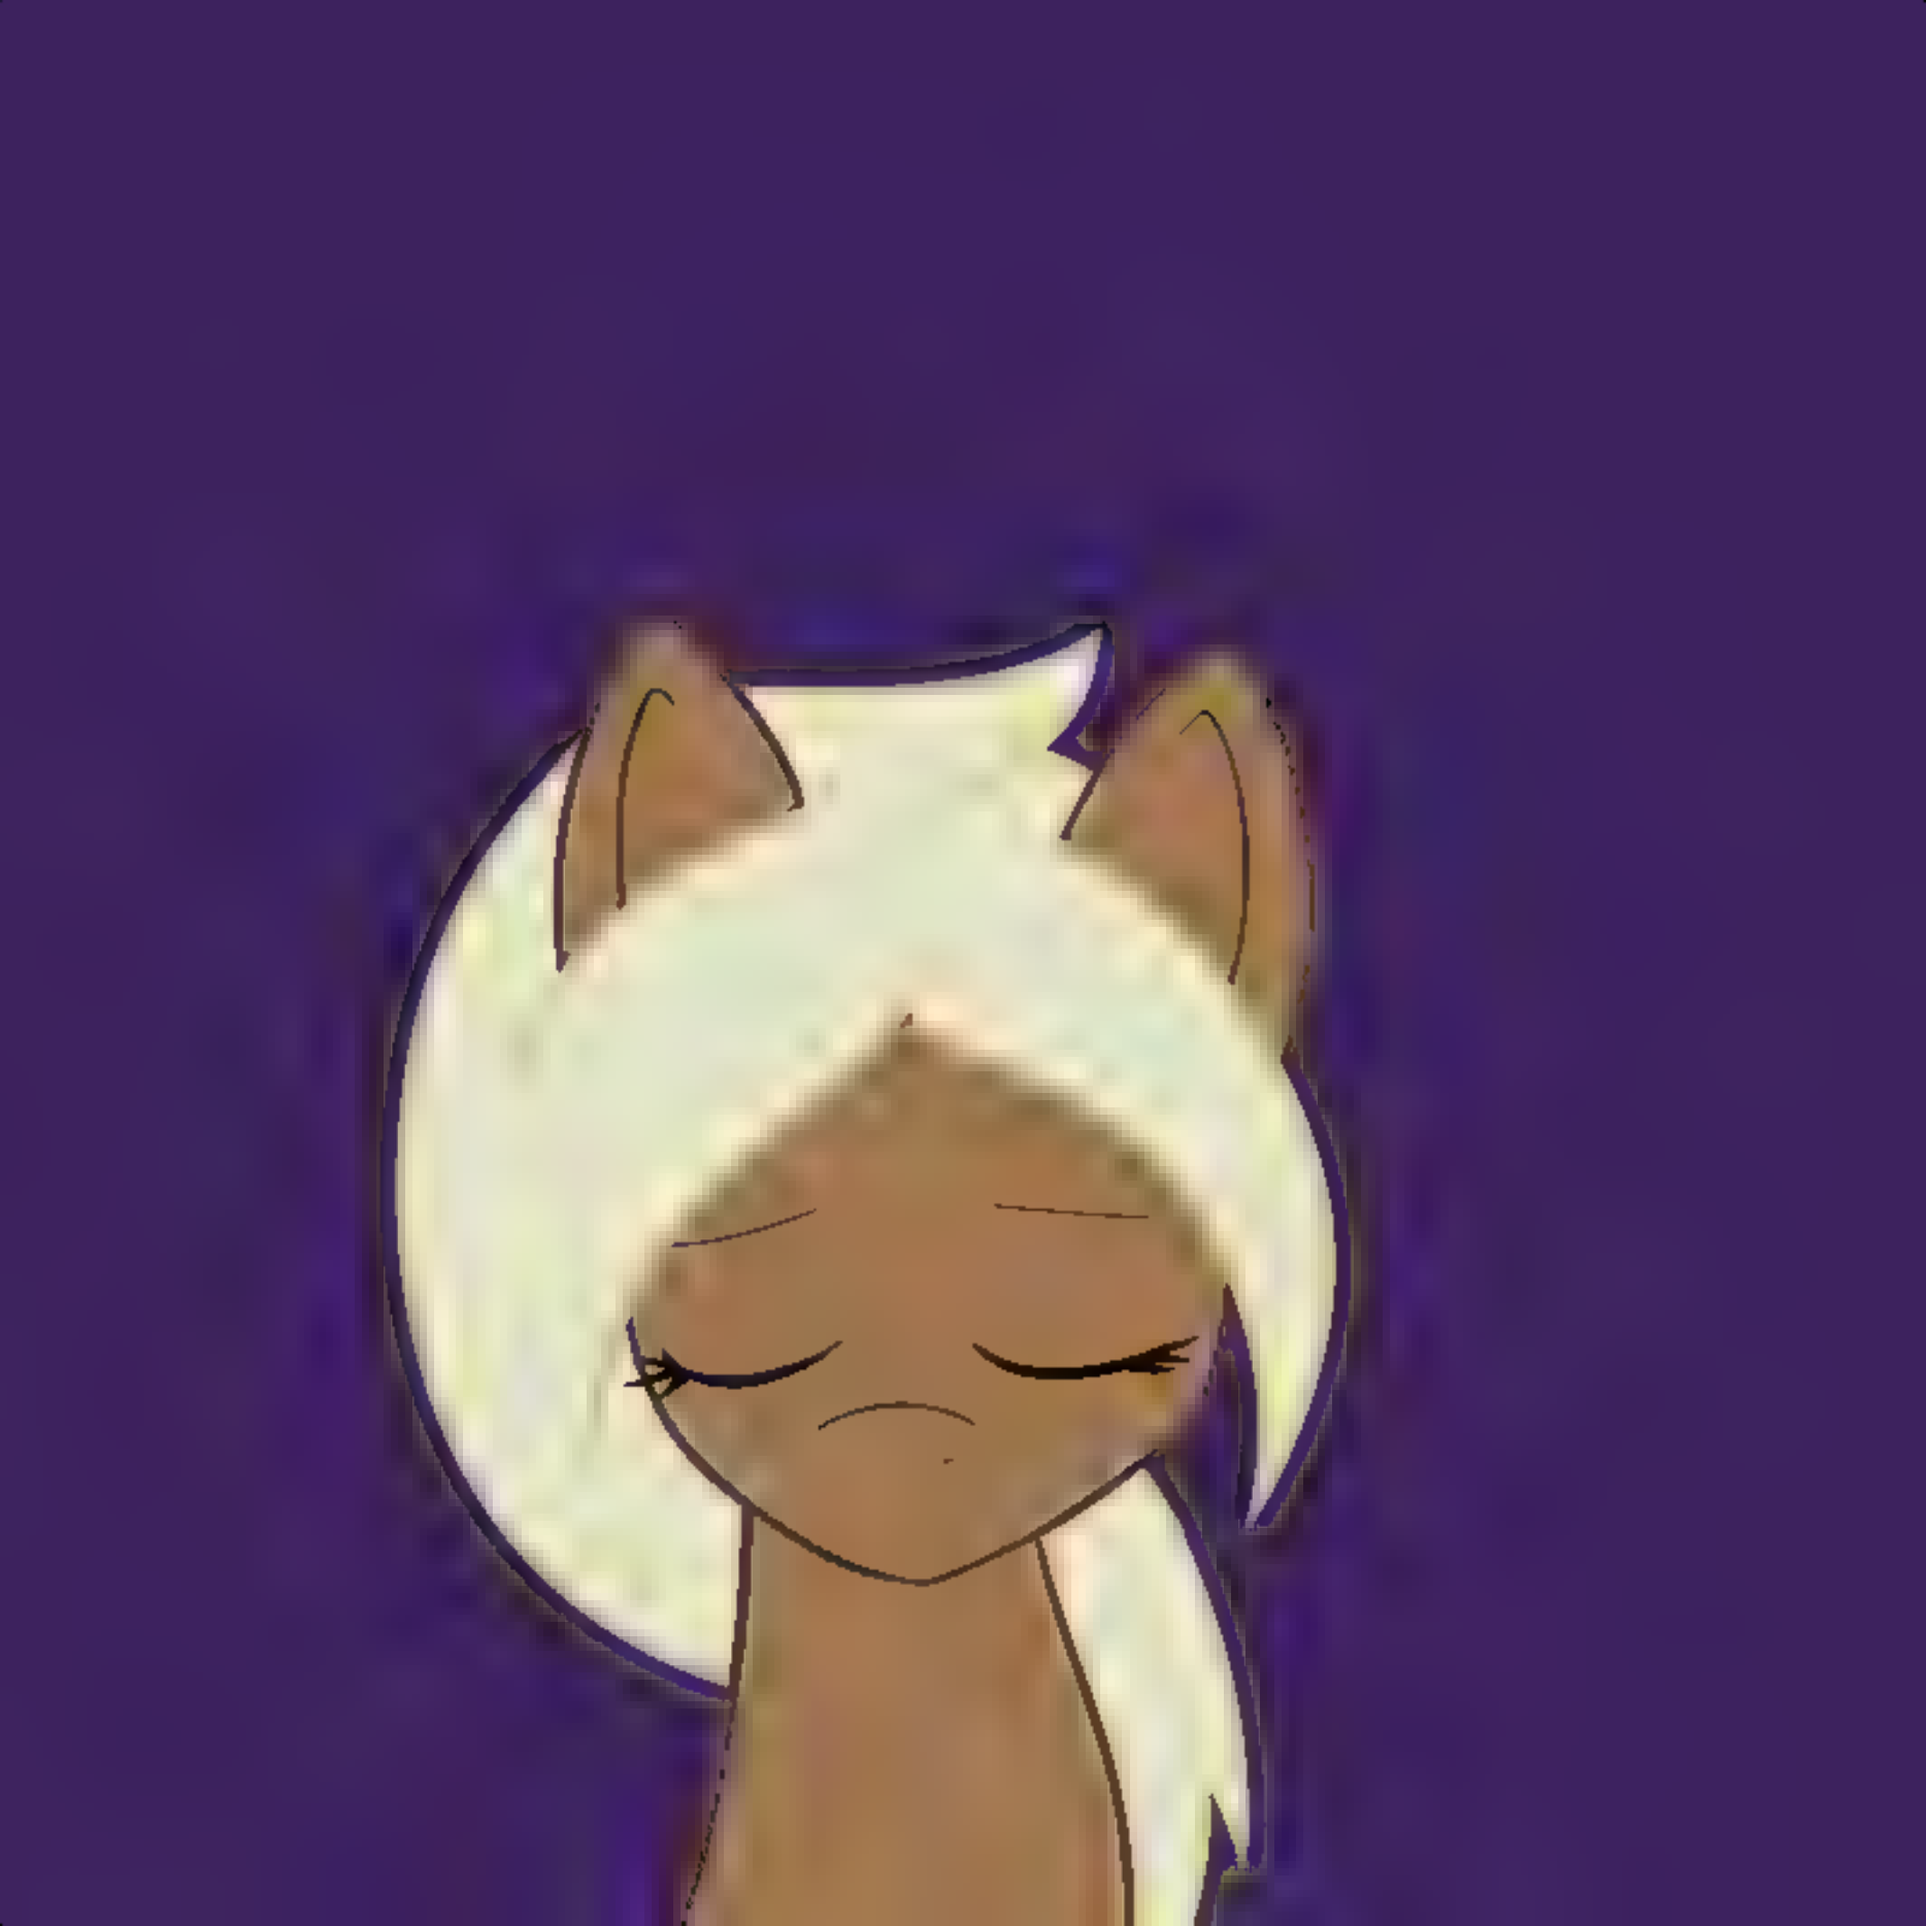
Sandy, please let Scootaloo know that Lightning Blitz is safe. And that she is welcome here any time.

He should always know that he has two mommies who both love him very much.

...I see...

This really will be a good home...
And I'll let Scootaloo know.





Then... I guess there's just one thing left for me to do...

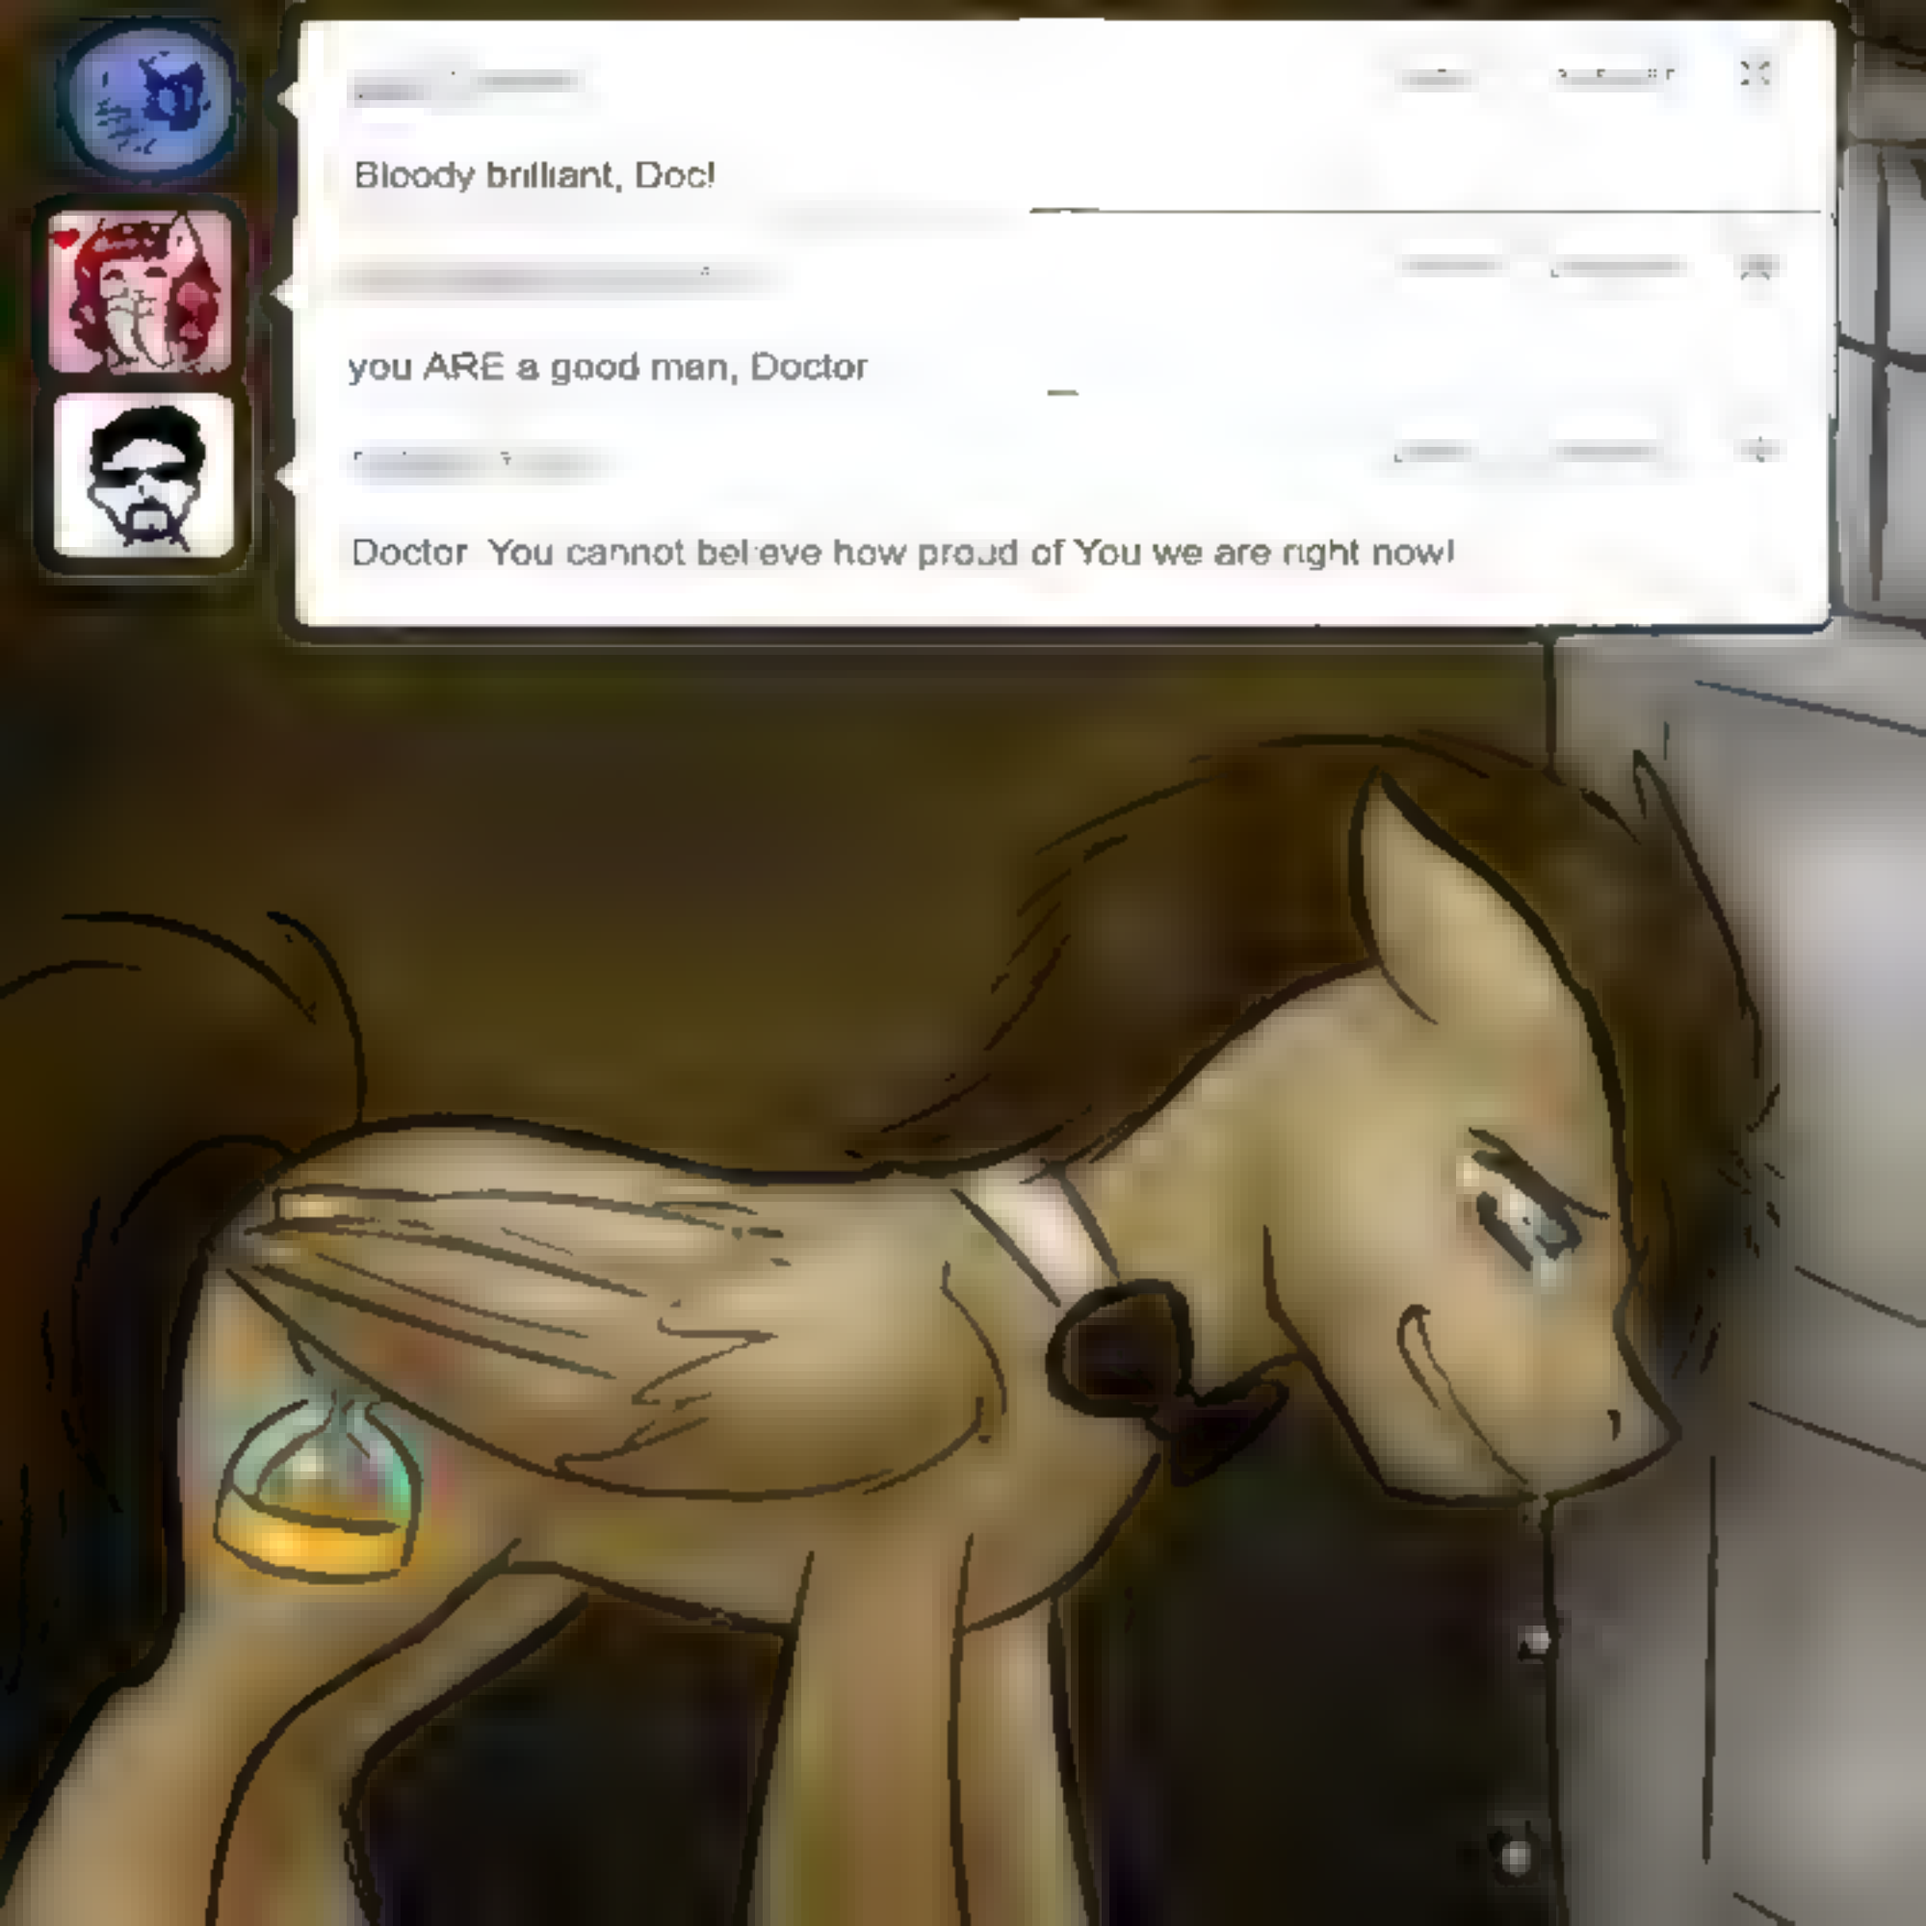
Finally! So awesome to see you doing some good again doctor! Thanks a lot for helping out Scoots and her baby!
Doctor, this is fantastic! You're helping people again!! Ditzy would be proud!!



Bloody brilliant, Doc!
you ARE a good man, Doctor
Doctor. You cannot believe how proud of You we are right now!

Nice to meet you jack
Hi~♥ Nice to meet you, too.

hello jack~ how have you been?
Good news, I can hear you folks as long as I'm on the TARDIS now. But only the stuff directed at me and only when I want to hear it.

So Jack How's being a pony treating you?
So Jack, hows the Pony body?
So far how are things in this new horse filled world, Jack?
So far? Not bad. I've been getting the hang of it while the Doc's been out.

Hey, Jack! Your coat? I love it's shade of blue!
Thank you, yours isn't too bad yourself.

Dear Jack, I hope your arrival to Equestria is going well! It must be weird being a pony suddenly, if you need anything just come and ask me~!
I'll keep that in mind~♡

@ Jack love the new style but how d dja get your cutie mark, or do you know?

Come on now, we all know you just wanted a look.

Dear Jack - Stop being so sexy It's making my ovaries explode
Can't help what I am,
sorry.

Oh, Doc's back!
CREEK

Hey Jack, what color is The Doctor?
Jack does The Doctor look different to you than he did when you first arrived?

Is it just me or
is he brighter than usual...?

Is Scootaloo gonna be okay? I'm worried about her and her child (
She'll be fine, the hospital staff know what they're doing.

Doctor do you have any dea how you ended up there of a l places at the right time? I mean it looked like the middle of the forest
SCOOTALOO??? How'd the Tard s take you to her?
The TARDIS has a habit of doing that... She knew I was needed there, so that's where she took me.

Hey Doc, you seem a bit more ch.pper than normal What could poss bly go wrong?
It's just nice to have something go right, that's all.

You just saved two lives from being lost. Why'd you do it, Doctor?
Why?
Well, why not?

How do you feel about saving two young lives doctor? It honestly seems now that your going to become the old doctor again.
So Doc, how does it feel to have saved a life for the first time in a long while? I bet it feels good
Has it been that long? But yes, it does feel nice...

Doctor for not he ping a pon es anymore you still seem to help a lot of pon es
You sure you are "not the doctor"?
Trying to save lives again eh? I thought you only cared for yourself but what if you accidently build up your reputation again?
Did you just he p someone Doctor? Two someones at that I thought you weren't a hero
What...?

Helping again eh Doctor? I thought that wasn't your thing
So you still have a bit of hero left in you eh?
What happened to not being a hero anymore eh Doc? I thought you were a coward?
E-excuse me, were you honestly expecting me to leave a child and a baby to die?

Just how heartless
do you think I am?!

Honestly, it was
only natural to help them.

Doc...?
Oh, hello Jack!

Did you... Do something?
I mean, you look a little.. different...
Oh, yeah, my bowtie got a bit messed up.

Hmm... Yeah, that must have been it...

Well, hey, to celebrate finding the baby a good home, let's have a drink and answer some questions!
Drinks...?

I've gotta say,
love the addition of a bar.
Glad I'm not the only one.

Don't be by yourself Don't let yourself be alone again
Good company and good drinks, got it covered. I don't think I'll be leaving any time soon.

So. Doctor? How do you feel now being around Jack. As far as I remember just looking at him used to give you a headache right?
How does it feel having Jack back in your life?
It's refreshing! He may give me a headache, but his company makes it worthwhile.
Aw, shucks, Doc.

Doctor Show Jack those photos of when you were a mare We KNOW you have them hidden under your bed > 3
Oh I already saw them, he doesn't exactly hide them well.

So Doctor has Jack been act ng any Different around you?
Seems the same to me...

So. doctor, Exactly how close are you and jack?
Close? Hmm... I'd say he's been a good ally so far.
Oh, come on! We're at least friends, right?
Well... I suppose...

Ey doc P'anning on get down and dirty with jack ,D ?
Do you think you and Jack will get up to more persona things? *wink wink nudge nudge*
HA HA HA HA!

Hey ¸ack! Try to see if you can get the doc to open up a bit
Kay.

Don't t-touch those!
You're no fun...

So is it Jack or the getting down and dirty that makes you blush? I mean Jack's always had his crush and you're not gonna be a dick anymore, right?
Oh just leave it alone, would you?!

Doc, you should get Jack before he get's you~ If you know what I mean~ *Wink wink*

Relax Doctor, we're just teasing you.
It's not funny...

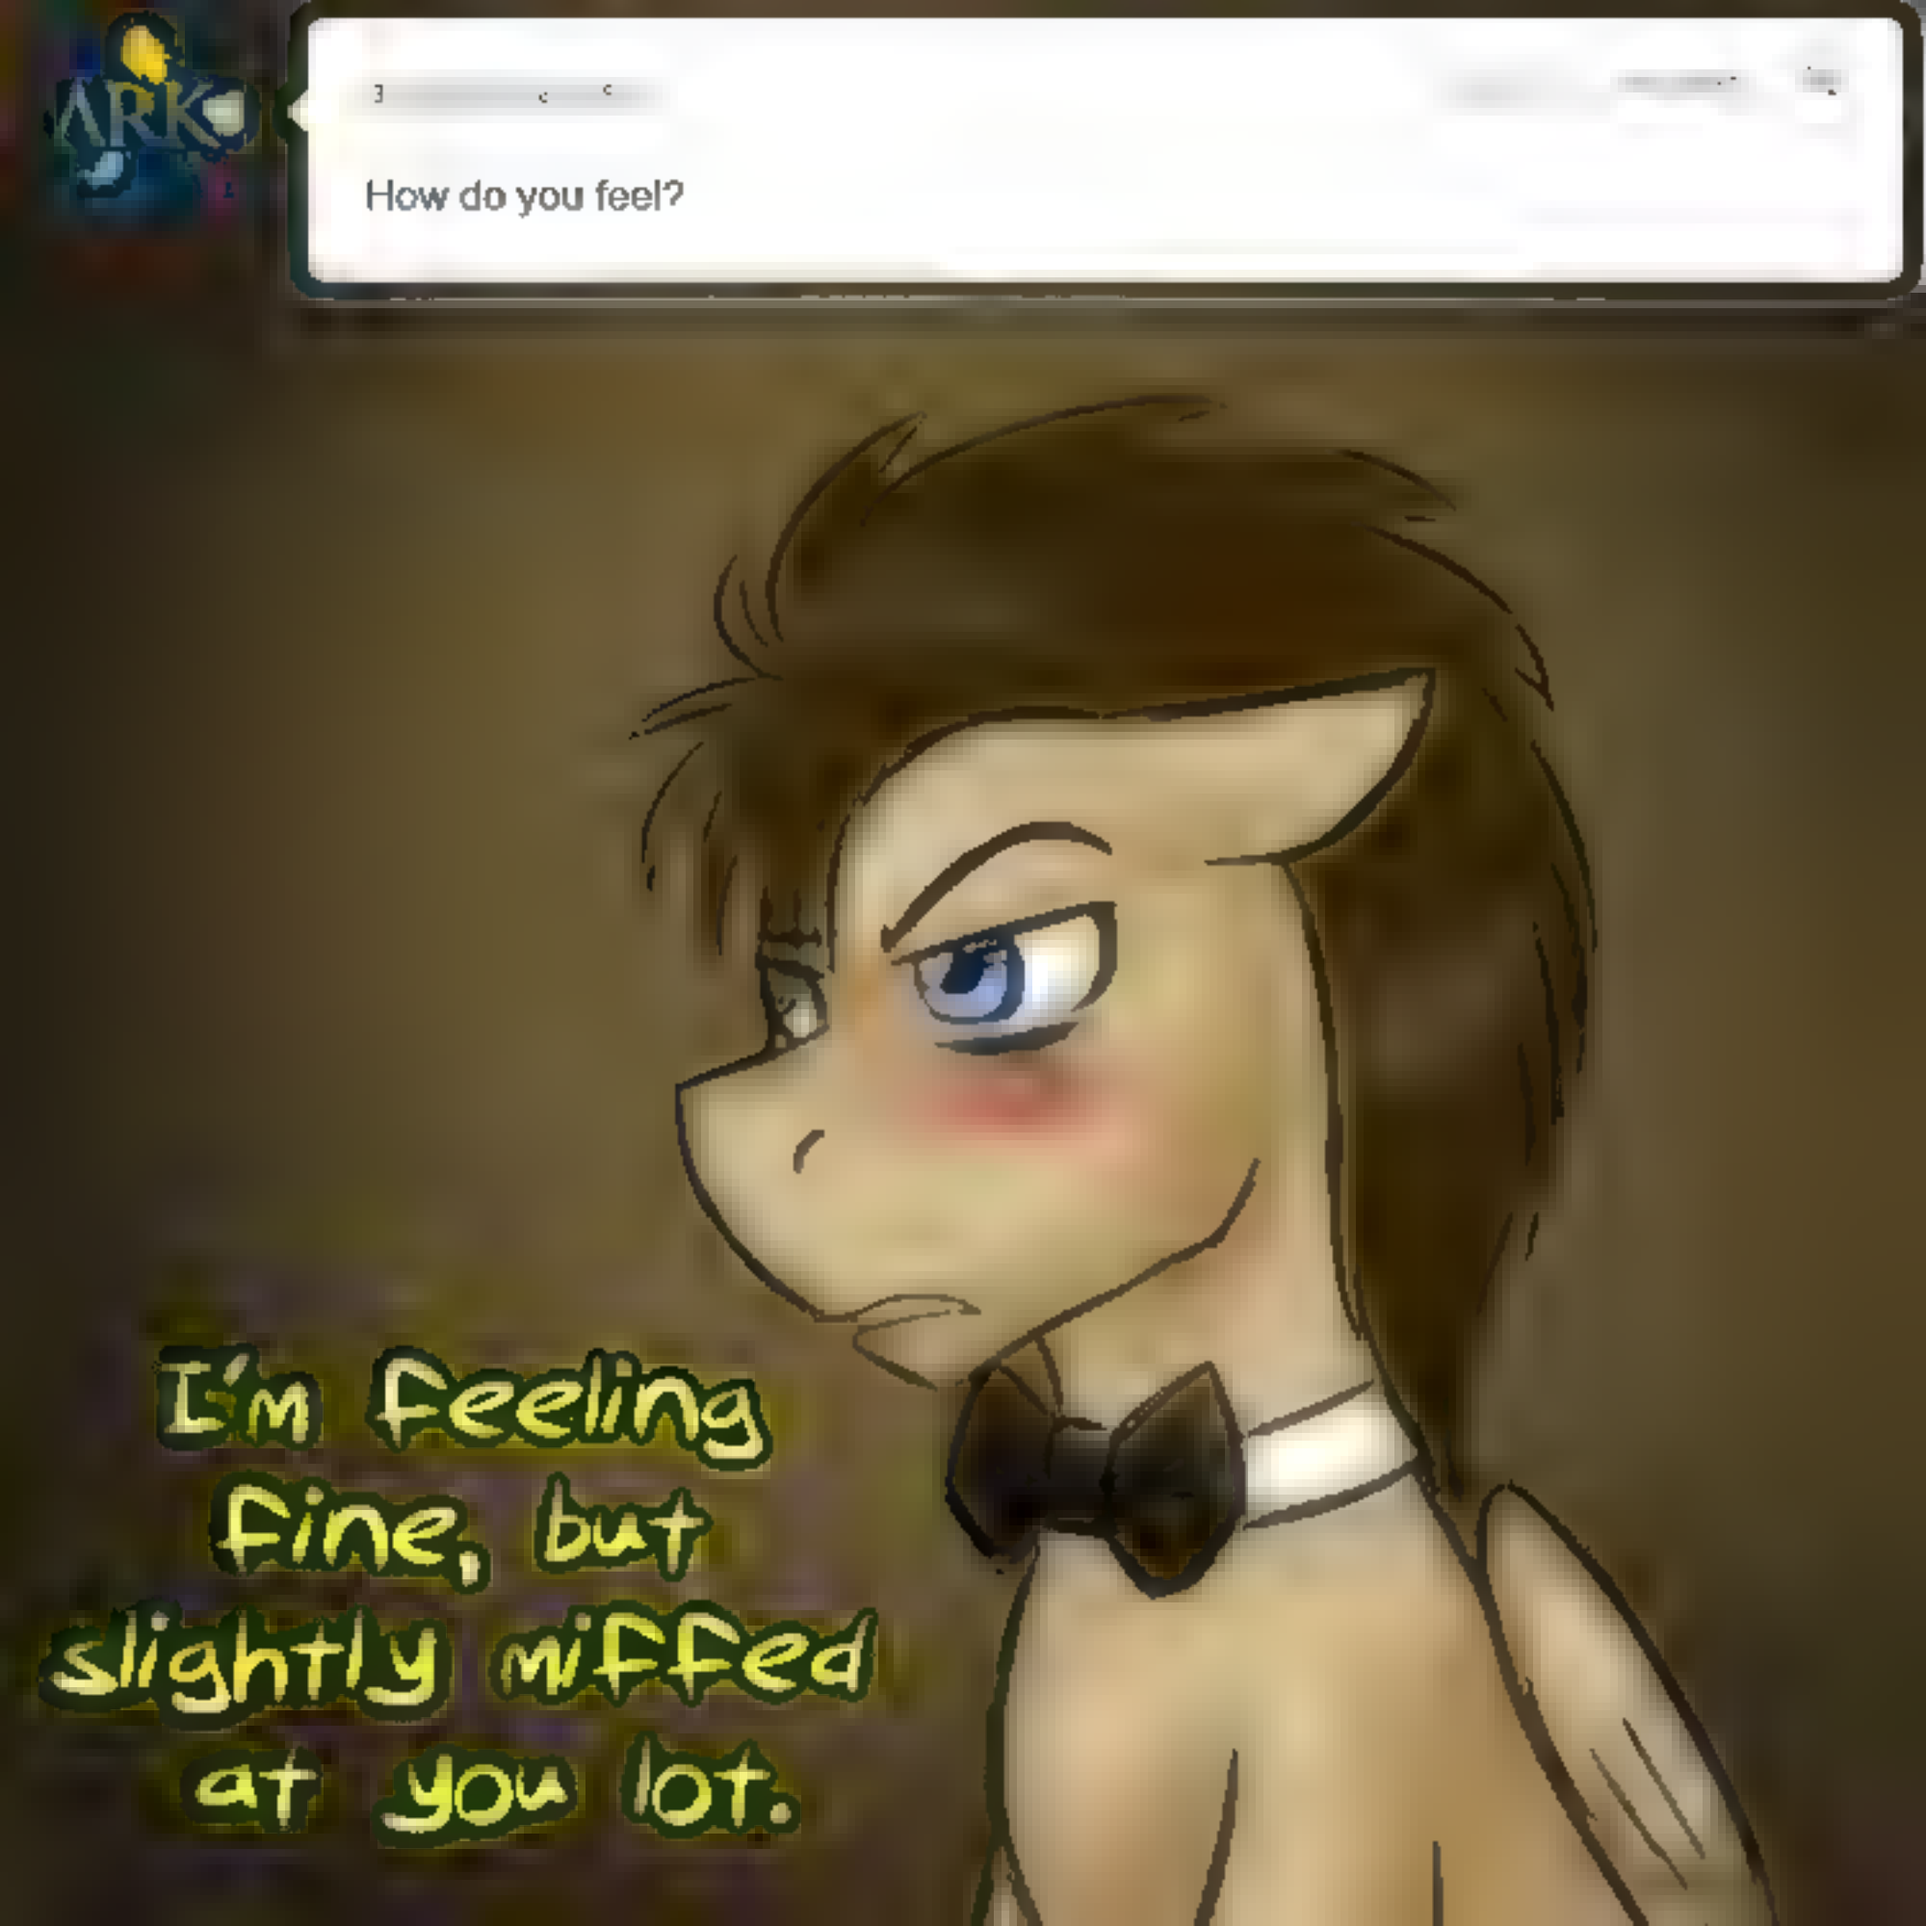
Oh come on doctor! We all know you're attracted to him ;D
Come on Doctor you want to have some fun with him admit it~
N-No! It's not-- I'm not--

Oh come on Doc! You know you wanna
Don't deny it Doctor
Nope. I'm done. Need to focus on the baby again.

Jack, Just... Enjoy the bar.

Well, it's just
you and me again.
Hi

Stop flirting
with the askers...!



How do you feel?
I'm feeling fine, but slightly miffed at you lot.

Do you feel like a coward Doctor?
I always have, but that doesn't stop me...
Why..?

Do you remember anything Doctor?
Remember...? I'm fairly sure I remember everything. I've been a bit down and out, but can you blame me...?

Would you say you feel like Someone is your puppeteer?

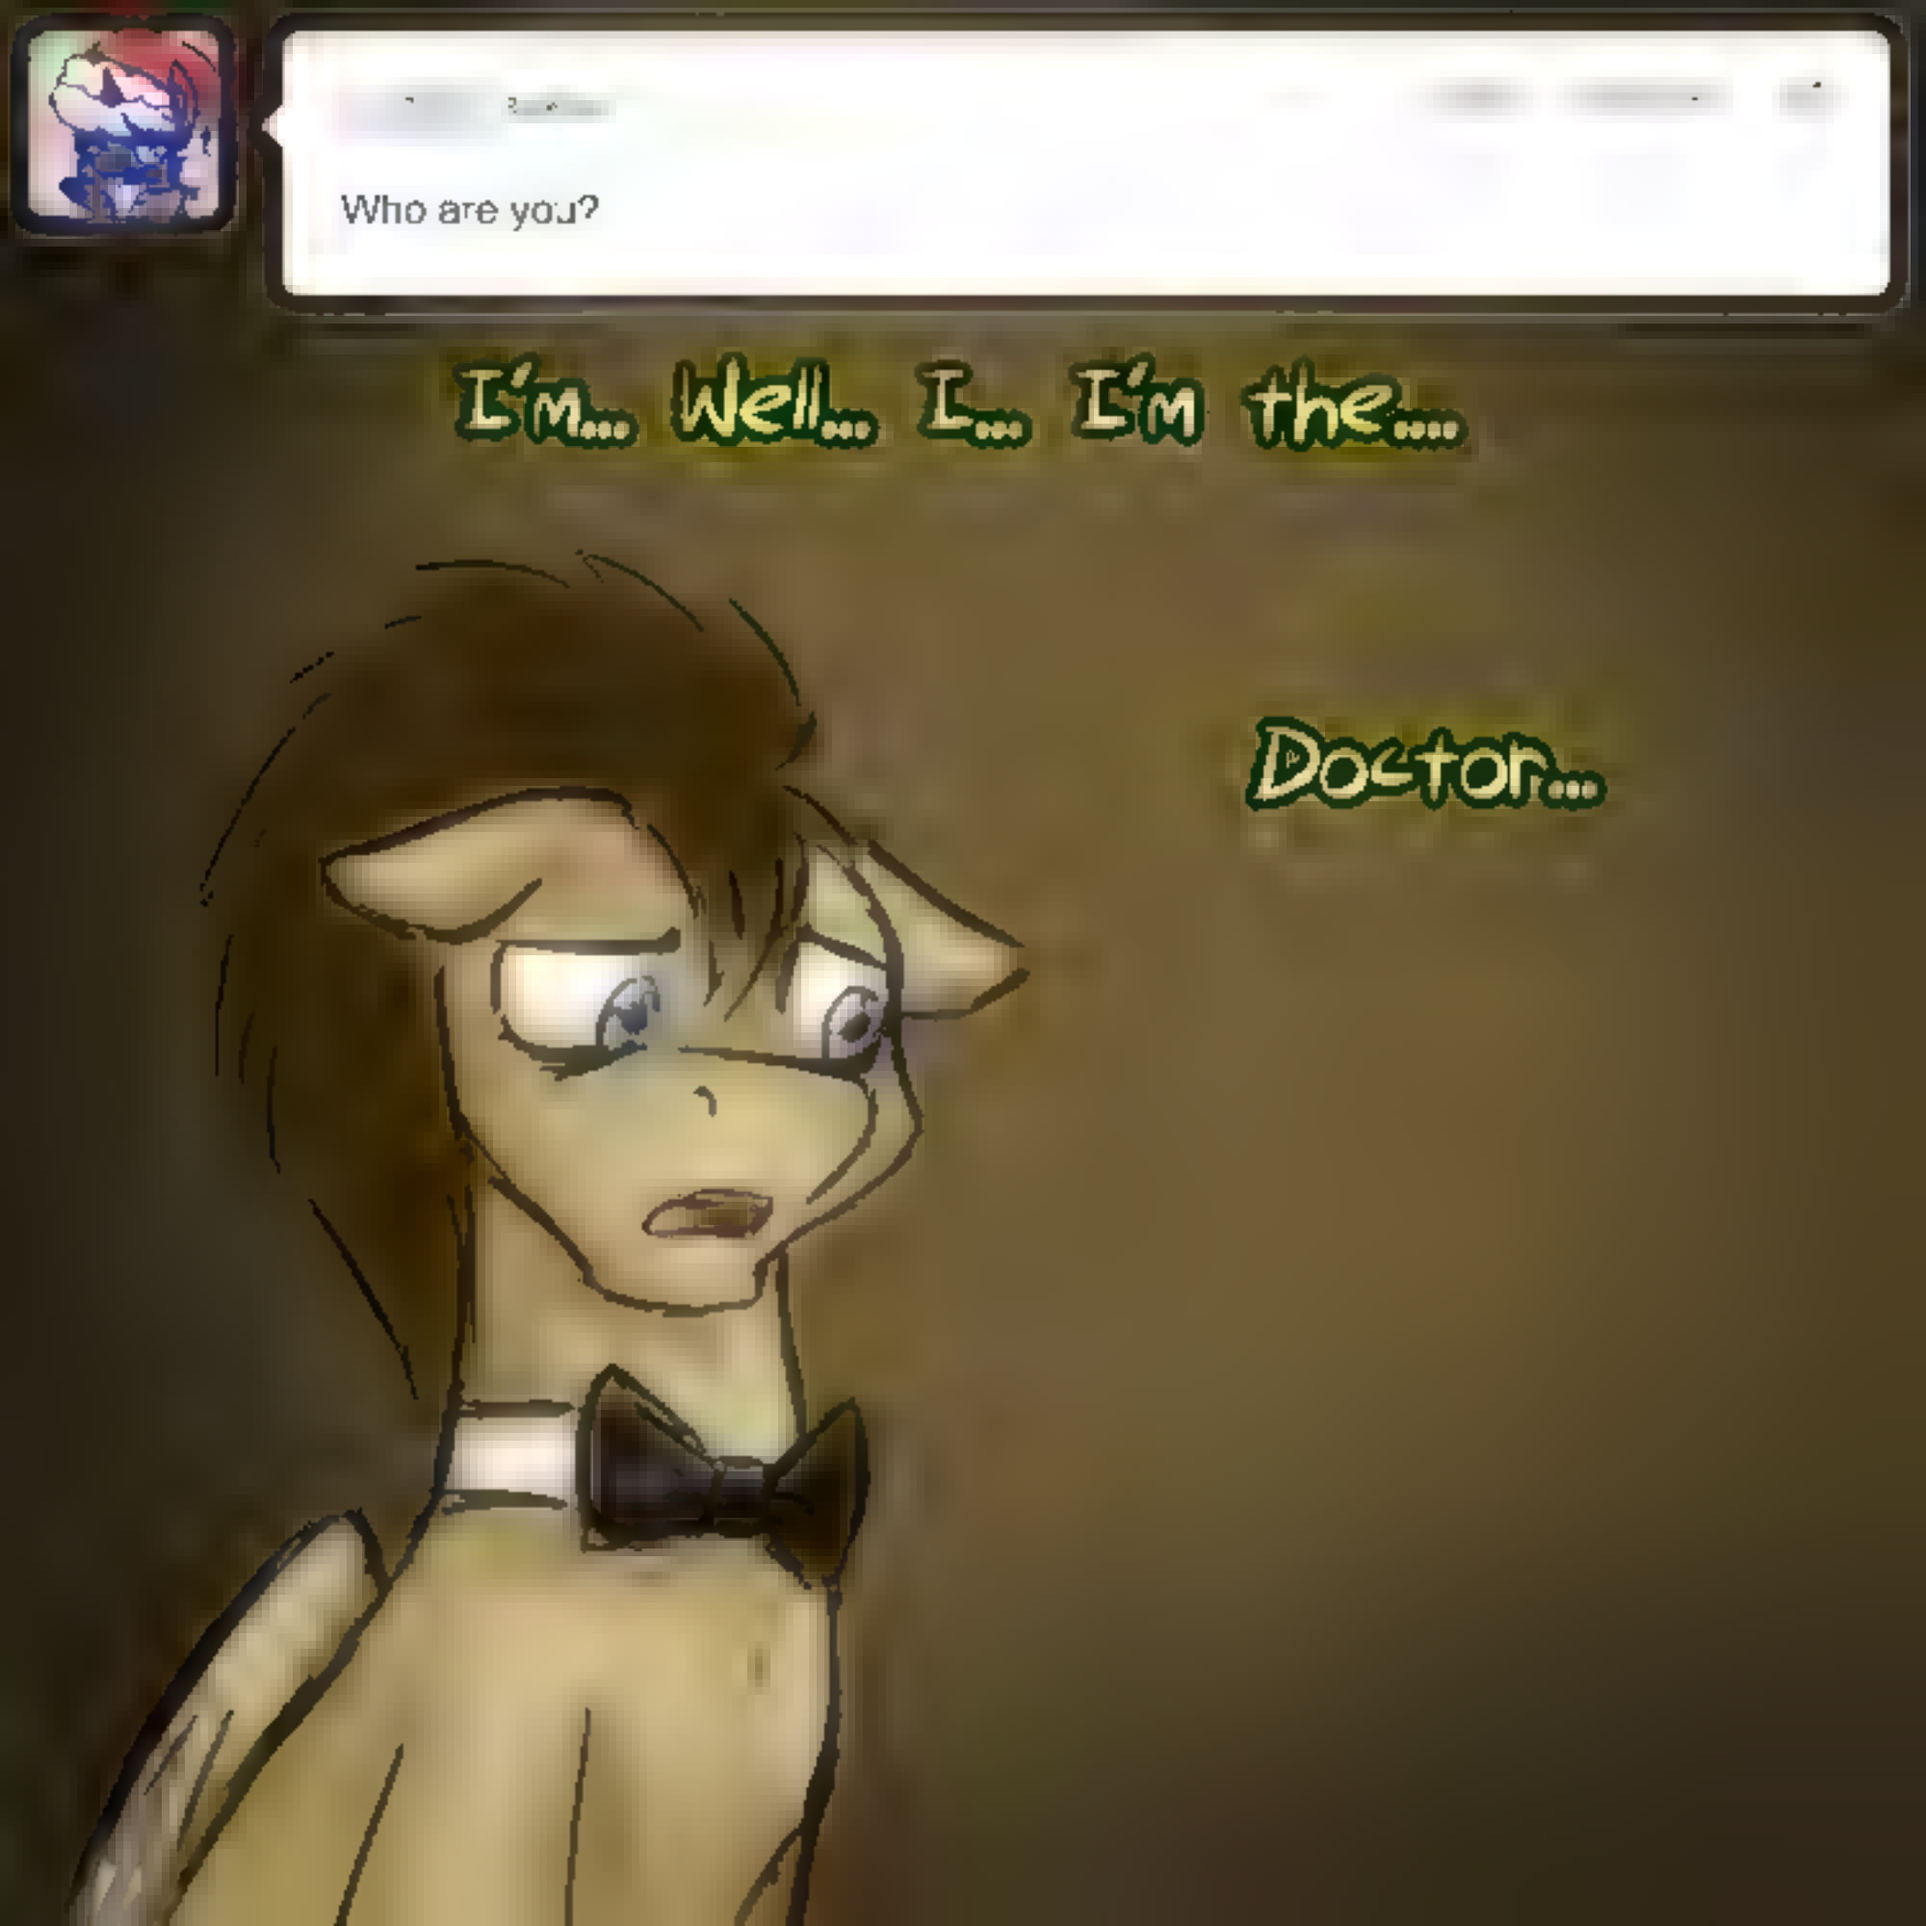
N-no, of course not, but
you're all giving me the creeps...

In a totally hypothetical situation, if you were being influenced by a massively powerful perception filter, how would you know, and how could you deal with it?
You mean like a perceptual barrier? I'm quite familiar with those, Time Lords would use them to hide away memories...

The more you try to think about it, the stronger the barrier gets. The best way to get past it is to think about other things that give you comfort, it may resurface the memory but only just in the corner of your mind. The only true way to fully counter it is through a direct trigger related to the forgotten memory.

Derpy is hot Realy hot why you ain't hitting that again?
Oh, I've hit her Plenty of times, idiot!!

Do you miss the old universe Doctor? I mean, would you rather go back to the world you knew or stay in this pony universe?
Wha...?
What was I--
O-oh, of course I miss it- but I can't go back...



Who are you?
I'm... Well... I... I'm the...
Doctor...

hey Jack have you ever had an fantas es about doing certain things with the doctor? And do you intend to act on them?
When have I not been having fantasies about him? That's the better question. But I'm just teasing.

Jack, was that you at the Wonderbolt Academy? Or has that not happened yet for you guys?
Hey Jack, how dah hel did you get into the wonderbolt academy so fast, cuz didn't you like just get here a short time ago
The what? Must be something in the future for me. Time travel does that.

Hey Jack, you gonna try to help The Doctor? Just like old times?
So Jack... Just like old times, eh?
Yeah, just like old times.
I was starting to think I'd lost him forever...

Jack Jack!! You really need to help the doctor out this time If anything happens to Twilight that would be bad You'll do your best to help, right?
Yeah, of course.
I'd always help him if he needed me.

Jack please don't leave the Doctor he need someone to be there for him so just don't leave him for all of us
I... Of course, but... What's this about...?

Jack, you gonna ask the Doc about what he's been doing?
After those questions, I'm wondering if that would be a good idea or not...

Jack, are you planning on making a Torchwood in Equestria?
No. I'm through with Torchwood. Those days are over...

Jack, the doctor has already stated that there aren't pony versions of everyone from your universe However, if you met a pony version of Ianto Jones what would you do?

Jack, what do you think about the Doctor's 'No more sex' policy?

He's been having
SEX?!

Does Twilight have everything she needs for the new baby?
Do you have all the supplies to take of a child? Does Twilight?
Oh, hello, yes...
Yes, I'm working on that right now.

where did oncoming lighting got that toy? do you hide stuff under that bow tie?
Doctor why did you have a baby rattle in your collar?
Hm? I thought I explained this before, I have dimensional pockets. Bigger on the inside.

So Doc, can you just pull anything out from underneath your bow tie?
No, just whatever fits and whatever I've put in my pockets at the time. They're just very big pockets, that's all.

Hmm, that's all the small things,
but where do I get...

Note
Dear Doctor
I'm sure the pony you have in mind for the baby is perfectly capable but I thought I'd send some foal gear gifts anyway The crib and changing station will require assembly and I hope the box of 200 diapers will be a good start
